COUNTRY CLUB ORGANIZED AND BOARD DIRECTED TO BUY A SITE

Organization Becomes Reality With
115 Stock Members Signed up
And Ten Others Assured

BY-LAWS ARE ADOPTED

Club Will be Financed With Sale of
Common Stock and Preferred
Stock Paying 5 Percent

WORK WILL START AT ONCE

Golf Course Will be Built in Time
For Play Next Summer—Stock
to be Non-Assessable

With 115 stockholders signed up Tuesday night and the required ten more assured today, the Rush County Country Club is now a reality, the stockholders having voted unanimously last evening at the meeting in the court house, to instruct the directors to purchase the tract of sixty-one and a fraction acres from Robert A. Innis at \$200 an acre immediately.

With a few amendments, the by-laws which were presented by the board of directors last night were adopted and a committee of three was appointed to draw up a constitution and by-laws, as well as articles of incorporation, which will be filed with the secretary of state in a few days.

The board of directors will appoint the standing committees in a few days, the first one to be the finance committee which will be in charge of the collection of the subscriptions for stock.

The business of putting the land in condition for use next spring will be started this fall, including the erection of a club house and the building of a golf course.

The proposition will be financed with the money derived from the sale of common stock, which is limited to two hundred shares, and of preferred stock, which will be limited to one hundred and fifty shares in the constitution and by-laws.

The constitution and by-laws will provide that the preferred stock sell for \$100 a share and draw five percent interest, but only the holders of common stock shall have a vote. Approximately \$5,000 in preferred stock was subscribed last night.

Ralph Payne, as temporary secretary of the meeting, read the proposed by-laws and they were then taken up, section by section, as questions were raised by stock members of the club.

One amendment passed by the members was that the stock shall be non-assessable, and that this fact shall be stated in the constitution as by-laws as well as in the stock certificate itself.

Another amendment which was adopted provides that the constitution and by-laws shall not be amended except by a majority of the stock members present at any given meeting, provided every stock member has been notified of the proposed amendment and what its purposes, thirty days in advance of the meeting. The by-laws presented by the board of directors provided that the by-laws could be changed by a majority vote of the board of directors.

These were the only changes of any importance in the by-laws offered by the board of directors. One minor change provided an unmarried woman over twenty-one years of age living with her parents, might remain in the club on a household membership. It was discovered that the sections of the by-laws conflicted in such a way as to make no provision for people of this class.

After these changes had been made and the amendments to the by-laws adopted, the question was raised as to whether the amount of stock should be stipulated in the articles of incorporation. It was pointed out that to avoid taxation, the amount of the stock should not be fixed in the articles, which brought about the suggestion that in order to incorporate all of the proposals, there should be both by-laws and constitution.

On motion of Will M. Sparks, it was unanimously voted that a constitution be adopted.

MAY PROCLAIM PEACE NOV. 1

President Harding to Act Since
Senate Ratified Treaties

Washington, Oct. 19.—President Harding may proclaim that the United States is officially at peace with the Central powers on armistice day November 11.

Formal peace between this country and her former enemies was virtually an accomplished fact today, however, by the Senate's ratification last night of the Harding peace treaties with Germany, Austria and Hungary. The vote was 66 to 20.

The four countries now will formally exchange ratifications after which peace will be officially proclaimed.

COUNCIL DIVIDED ON MOTOR PUMPER

Holds Closed Session Following Regular Meeting and is Unable to Reach Agreement

2 SAID TO FAVOR ONE OUTFIT

Other Councilmen Want Two Smaller, Equipped Outfits—Usual Business Transacted

The city council which met in regular session last night, transacted the usual business, with very little of importance coming up. The matter of purchasing a motor fire truck was considered behind closed doors, but the councilmen were unable to get together on the proposition and it was deferred indefinitely.

The bids on the purchase of motor fire apparatus were submitted two weeks ago, and it was thought likely that a decision would be reached last night, but it is said to be divided, and the matter may slide by.

It is understood that councilmen Pearce and Abercrombie are together on the purchase of one good pumping outfit, while Councilmen Wagoner and Manzy seem to favor the purchase of two smaller outfits, and none will give in to the other side, making a tie vote on account of the absence of Councilman Lee.

The two who are in favor of one good outfit do not desire to have the matter come to a vote, which would leave the decision in the hands of Mayor Scudder, and it is generally admitted that he is not in favor of a standard outfit.

Last night a 500 gallon pumper from the Stutz Fire Engine Company came here and remained all night, and Mr. Johnstone, the representative, urged the councilmen to accept his offer as submitted in the bids two weeks ago.

He said that the company had a 600 gallon pumper on their floor, which he could deliver here Sunday morning, if the city would place their order at once. He was not given much satisfaction by the councilmen, although his truck made a very favorable impression with those who saw it.

The council in their regular business decided to purchase 100 loads of gravel for street repair, and Superintendent A. T. Mahin reported that the new boiler would be shipped in a few days and that the water and light plant was now ready to receive the new machinery.

The matter of a drain in the form of a storm sewer near the old hitch rack, was taken up and the matter was left in the hands of the sewer committee with power to act. This new drain is made necessary by dredging of the mill race, and will take care of surplus water during a storm.

The fire committee reported that the bell tower and roof had been painted by the street committee. The usual claims and bills were allowed before adjournment and the next meeting will be on November first.

MRS. ALICE REA OF NEAR FALMOUTH DIES

Wife of Daniel Rea Expires at Local Hospital Following a Serious Operation

FUNERAL THURSDAY, 2 P. M.

Mrs. Alice Rea, wife of Daniel Rea expired last night about eight o'clock at the Dr. Sexton hospital in this city, following a serious operation. The deceased was a well known resident of near Falmouth, having resided on a farm one mile north of that town for a long time.

The deceased was 57 years old, and is survived by the husband and three daughters, who are Mrs. Helen Smith, Mrs. Edith McCrory and Mrs. Lillian Martin, all of the Falmouth neighborhood.

The remains have been taken to the home north of Falmouth and the funeral services will be conducted Thursday afternoon at two o'clock at the Fairview church, with burial in the cemetery nearby.

SUIT FOR BREACH OF PROMISE FILED

Cora H. Six of Near Gwynneville Demands \$5,000 From Sherman Addison of Near Carthage

REVIVES AN OLD CASE HERE

Addison Recently Arrested on Paternity Charge But is Released Because 2 Years Has Elapsed

Cora H. Six, a resident of Shelby county, living near Gwynneville, today filed suit in the circuit court against John Sherman Addison of near Carthage, the action being for \$5,000 damages for an alleged breach of promise to marry.

The plaintiff sets out in her complaint that in June, 1917 she became acquainted socially with the defendant and their acquaintance developed into undue attentions by the defendant, who made promises of marriage and had illicit relations with her.

She alleges that these relations continued after he returned from the war, and that in 1919 she gave birth to a child of which he is alleged to be the father, and that he refused to fulfill his part of the marriage obligations incurred from such courtship.

The complaint alleges further that he left the county and could not be located until recently when he was arrested on a paternity charge in the justice of peace court, wherein the action was thrown out on account of the lapse of two years in serving the warrant.

At the present time the case is before the circuit court on an appeal by the plaintiff in this case.

The complaint filed by Miss Six alleges that the defendant married another woman, and that her own character and reputation, which had heretofore been unstained, has been damaged in the extent of \$5,000, as well as the expense of maintaining the custody of the child.

C. W. Duncan, local attorney who represents the plaintiff in this case, also filed a suit in which W. F. McLaughlin and Company is plaintiff and William O. Allen defendant, the action being a complaint on an account in which \$100 judgment is demanded.

In the case of Joseph Eskew against Young and Young, a suit for money had and received the defendants have filed an answer in which they allege that they never had any business transaction with or for the plaintiff, and that he is unknown to them. They also ask the court to make Jennie Spacey a party to the defendants.

MITTEN FACTORY OPENS

Bluffton, Ind., Oct. 19.—The Boss mitten factory which suspended work during the summer, was in operation again today. Twenty-five women were given employment and more will be employed within the next few days, it was said.

ODD FELLOWS OF COUNTY GATHER

In Rushville For Annual Meeting, Climax of Which Will be Torchlight Parade at 7:15

1,000 MARCHERS EXPECTED

Grand Master Beyers and Grand Secretary Leedy Arrive at Noon To Take Part in Ceremony

The Odd Fellows of the various lodges in Rush county gathered here today for the county meeting, and with clearing weather in the north, it was predicted that a record crowd would be here tonight to take part in and witness the parade and initiation which will follow.

The threatening weather kept many away this afternoon, but even at that every lodge in the county was well represented and this afternoon a large number of candidates were being given the first degree by the Milroy staff.

Otto Byers, Grand Master of the State, of South Bend, and William H. Leedy, Grand State Secretary, of Indianapolis, were among the high officers who came this morning to take part in the county meeting. At noon they were guests of the Kiwanis Club at their weekly luncheon and each spoke briefly.

Three degrees were to be given today by the different lodges in the county, with Milroy having charge of the first degree this afternoon, and with the Mays and Arlington lodges taking part tonight.

The work tonight will be preceded by a torch light parade, in which each lodge will be represented with marching members and with floats. At least one dozen floats have been prepared, and artistically decorated by the Odd Fellows and Rebekahs who also will have a parade.

The procession tonight will form promptly at 7:15 o'clock at the corner of Main and Fifth streets and proceed south in Main. Two bands will take part in the marching, the local Odd Fellow's band heading the first division and the Arlington band the second.

One thousand people are expected in the parade tonight as the committee has been assured of a big attendance from each lodge in the county, and 1,000 sticks of "red fire" are on hand ready for the marchers.

An automobile delegation also will convey members who are unable to walk in the parade.

POSSESSION OF HOUSE AND DAMAGES SOUGHT

James H. Worth of Joplin, Mo., Files Suit in Justice Stech's Court Against Alvah Linville

COUNTER ACTION TO BE HEARD

James H. Worth, of Joplin, Mo., who is well known here, today filed suit in Justice Stech's court against Alvah Linville, the action being for possession of a house and for damages. The plaintiff alleges that the defendant rents a house at 432 West First street, and he refuses to give it up, after being served with a notice to do so.

The plaintiff also demands \$20 judgment which he says is one month's rent due. It is expected that the suit will be hotly contested as there is now a case pending in the circuit court in which Mr. Linville is plaintiff and Mr. Worth defendant, the action being to quiet the title of the real estate in the name of Mr. and Mrs. Linville, who claim they have a deed to the property.

The case in Justice Stech's court has been set for October 24 at ten o'clock in the morning.

Howard E. Barrett, as receiver in the case of Moore vs Moore in the circuit court, is plaintiff in a case against Lola A. Hudson, the complaint being for possession of real estate and \$100 damages. This case also was filed in Justice Stech's court.

FREIGHT RATE CUT REPORTED AGREED ON

Horizontal Reduction of Commodities Which Figure in H. C. L. Will be Made

RATE CUTS ARE IMMINENT

(By United Press)
Washington, Oct. 19.—Reduction of freight rates now applying to several important commodities virtually has been agreed upon by the interstate commerce commission, it was learned here today from a high administrative official.

A horizontal reduction of all freight charges will be made on certain commodities which play a big part in the continuation of the high cost of living, the United Press was informed.

It is understood here that representatives of the public group of the railroad board received assurances from members of the interstate commerce commission which in conference a few days ago that the rate cuts were imminent.

HARDING AGAINST ALLIANCE IN ARMS

Indicates He Hopes Limitation of Armaments Conference Will Bring Better Understanding

SPEAKS AT YORKTOWN, VA.

Stands on Spot Where British General Cornwallis Surrendered, Ending Revolutionary War

(By United Press)
Yorktown, Va., Oct. 19.—President Harding here today announced his unequivocal opposition to the United States becoming a party to any "alliances in arms" or submerging its nationality to a world sovereignty.

Standing on the spot where the British general, Cornwallis ended the revolutionary war by surrendering to George Washington, who opposed entangling alliances at the birth of the republic, the president indicated he hoped the forthcoming limitation of armaments conference would bring an "understanding and co-operative endeavor which shuns the alliance in arms."

The president's speech was taken to mean that he is opposed to suggestions from abroad that the United States join the Anglo-Japanese alliance or ally the tri-partite treaties with Great Britain and France for the defense of the latter. Harding emphasized that interdependence among the nations is necessary but asserted emphatically that "a program which seeks to submerge nationality will succeed."

Regarding a "world sovereignty" which might be taken to mean League of Nations, the president said: "One need not picture a world sovereignty, ruling over all the varying races, traditions and national cultures because it would never be."

"That would mean a social, institutional and intellectual standardization utterly inharmonious with the plan that filled the world with differing peoples, civilizations and purposes."

"No program which seeks to submerge nationality will succeed. This republic will never surrender so priceless a heritage, will never destroy the soul which impelled our gratifying attainments."

Out of the revolutionary war came a triumph of freedom of liberal freedom which caused an honorable and unbroken peace between the United States and Great Britain for more than a century, Harding said, adding that "a future breach of our peaceful and friendly relations is unthinkable."

After praising the genius of Washington, Harding said in part: "Our thoughts have lately been concerned with those events which made history on the scale of a world, rather than of a continent. Yet the lesson is the same. It is the lesson of real interdependence among the nations which lead civilization."

"I believe the time is come when there must be recognition of essential cooperation among nations desiring peace."

RAIL STRIKE PEACE PLAN IS PREPARED

U. S. Railroad Labor Board Meets in Chicago Today to Carry Out President's Proposal

TO MEET UNIONS TOMORROW

Board Expected to Propose Railroads Give Public Benefit of 12 Percent Wage Cut in July

BY SLASHING FREIGHT RATES

Brotherhoods Will be Asked to Call Off Strike and Roads Not Seek Further Wage Reductions

By CARL VICTOR LITTLE
(U. P. Staff Correspondent)

Chicago, Oct. 19.—The United States railroad labor board met today to carry out President Harding's proposals to bring peace in the railroad labor war.

Chairman R. M. Barton, of the board, said President Harding outlined to him certain broad proposals which the board will form into a concrete peace proposition for presentation to the union heads tomorrow.

Barton, Hangar and Hooper, who represent the public on the board, just returned from Washington where they were summoned by the president.

"The definite plan of proposed railroad peace will not be known until the members of the board have gone into every phase thoroughly," Barton told the United Press.

"We know in a certain way, the will of the administration and will talk matters over with those members of the board representing the carriers and the workers. The members who were not in Washington will give us the benefit of the 12 percent wage cut in July by an immediate slash in freight rates and that the carriers withdrew for the present their request of an additional 10 percent reduction in wages."

J. L. Smock, vice president of the Maintenance of Way Workers, affiliated with the American Federation of Labor, said here today, that his union would not issue a call for a strike if the roads would reduce freight rates and withdraw their request for an additional 10 percent cut in wages.

The brotherhoods will be asked to call off temporarily their Oct. 30 strike order and to use their influence in forestalling similar orders from other unions.

The hearing of the Pennsylvania before the board set for tomorrow morning, will proceed according to Barton. The Pennsylvania has been cited before the board to show why it should not be publicly repudiated for disobeying the board which ordered it to confer with shop employees to draw up a nominal set of working agreements.

The board in a recent rebuke to the Pennsylvania described the roads' disobedience of orders as "treasonable."

One member of the board "speculated" that representatives of the Pennsylvania, following the public hearing tomorrow, may be called into executive session with the board and told of the administrations plan of peace.

The executive committee of the railway department of the American Federation of Labor met today with

Roads Want a Strike

(By United Press)

Washington, Oct. 19.—"Railroads executives of the nations want a rail strike, believing it will give them a chance to deal the unions a death blow and strongly install the open shop," Representative Huddleston, Alabama, charged in an interview with the United Press today.

"Thinking little about the welfare of the public the executives have schemed to bring on a strike to further their own selfishness," Huddleston declared.

"IN THE PUBLIC EYE"
BY Howard Allen

SIGHT LEADS THE FOOTSTEPS OF MAN

THE highway of knowledge is for those folks who have a clear vision. If your eye cameras no longer easily adjust their foci; if the outer transparency of the eye called the cornea is improperly convexed so that it does not instantly reflect the light; or if the muscles of your iris-diaphragm do not instantly respond to a change of light you need the attention of a skilled optometrist.

REPORT IS SAID TO BE FAVORABLE

New Administration of Affairs in State Highway Department Are Commented Upon

FILED EXAMINERS REPORT

Former Methods Criticized and Points to Large Revolving Fund Which Is Now on Hand

Indianapolis, Ind., Oct. 19.—Change in administration of the state highway commission, through the appointment by Governor McCray of Lawrence Lyons as director, has resulted in a "very decided improvement" in the management of the affairs of the commission, according to a report of C. O. Van Horn, field examiner for the state board of accounts, filed with Jesse Eschbach, chief examiner.

The report criticizes the business methods of the old administration and refers to the large revolving fund kept with the Aetna Trust & Savings Company for which the state received no depository interest. Records in the state treasurer's office show, the report says, that since the revolving fund has been placed with a bank to draw interest, this action following the appointment of Mr. Lyons as director and John D. Williams chief clerk to reorganize the finances of the department, has drawn \$206.33 depository interest.

The revolving fund, the intent of which was to take care of the maintenance pay roll, and such emergencies that might arise, and which was first authorized in the sum of \$5,000, grew to more than \$100,000 under the old administration, the report says. When the change in administration took place the depository showed a balance of \$76,665.30. Of this amount \$38,437.06 was represented by outstanding checks and the remainder was turned over to the department by the retiring director.

The report recommends that payment on all outstanding checks be stopped on Sept. 30, that the residue of the fund be placed in the highway fund. According to Mr. Williams approximately \$1,000 remains in the fund at this time.

A financial statement of the work of the highway commission during the examination shows the total funds in the hands of the commission during the period amounted to \$4,797,789.15. Expenditures totaled \$4,089,552.69, leaving a record balance of \$708,236.30 on May 12. Of this balance \$671,012.12 was noted on the state auditor's balance and the remainder in the revolving fund. Seventy percent of the total expenditures were made by the maintenance division, the report shows. "It will be noted," the report adds, "that labor is one of the principal cost factors, showing 48.39 per cent."

30,000 LIVES MAY BE SAVED YEARLY

President of Society For Control of Cancer Organizes National Cancer Week From Oct. 30 to Nov. 5

DEATH RATE STATIONARY

Public Can be Taught How to Detect Early Symptoms and Induced to Begin Proper Treatment

New York, Oct. 19.—Thirty thousand out of approximately 90,000 persons who annually die of cancer in the United States, may be saved if the public can be taught how to detect the early symptoms of the disease and induced to begin proper medical treatment at once.

This is the opinion of Dr. Charles A. Powers, President of the American Society for the control of Cancer, which has organized a "National Cancer Week," from October 30th to November 5th inclusive, that the people at large may be better informed as to the scourge. Surgeons generally support Dr. Powers view.

Dr. Powers' statement is contained in an article written by Frank J. Osborne, Executive Secretary of the Society and published in Campaign Notes, the Society's official organ, together with statistics provided by Dr. Frederick L. Hoffman, statistician of the Prudential Life Insurance Company and one of the workers in the interest of "Cancer Week".

Dr. Hoffman's figures show that since 1916, the death rate from cancer has been arrested and has remained stationary except for minor fluctuations. This has spurred the Society to greater activity. In addition to the present campaign, it is month by month extending its work along the lines of public enlightenment and professional cooperation.

Dr. Hoffman's table of statistics shows that in 1920, 90,000 persons in the United States died of Cancer and that those comprised 52,884 women and 37,116 men. Colored people were less affected than whites.

Mr. Osborne presents a unique dialogue written by Dr. Franklin H. Martin, of Chicago, Secretary General of the American College of Surgeons. Dr. Martin says he got the idea during the Detroit meeting of the American College, when Dr. Allen B. Kanaval visualized ten cancer "points" by throwing them on the screen. These Dr. Martin has translated into the "Ten Commandments of Cancer". They follow.

1. Remember that Cancer is a relentless foe of humanity; that it attacketh the rich and the poor; the learned and the ignorant, and that its toll of death is greater than the destruction of the most malevolent war.
2. Remember that Cancer in its beginning can be cured, and that the wise man, accepting the advice of science, and recognizing the beginning, causes the Cancer to be cut from the body.
3. In this affliction heed not the voice of the ignorant, and submit not thy trouble into the hands of the Quack, because thereby death will be foreordained.
4. Search thy body for blemishes, the first signs of Cancer, and if thou shouldst find these signs, hasten to the physician that they may be interpreted and, with the diseases, eradicated.
5. One day each year thou shouldst rest from labors and give the day unto an examination of the body, that the physician may search into thy body for ills that should the signs of Cancer be evident, thou may be spared the most dreaded of deaths.
6. Thou shouldst remember that Cancer is not a blood disease but rather an ailment which begins in one spot and spreads slowly extending through the lymphatics; nor is it hereditary.
7. Remember that Cancer can be cured if completely removed by the knife before it extends through the lymphatics or blood stream, and that no other means of curing deep seated cancers has been discovered but be it known that radium and X-ray hold out hope because of their effect on superficial Cancers, and delay the progress of inoperable cases.
8. Remember that Cancer is not painful in its early stages.
9. Remember that irritation of a tissue favors Cancer; that a sore tongue irritated by a rough tooth, a cracked lip, a cigar, a pipe or a cigarette, and warts upon the eyelids, nose, or face should command the attention of a scientific physician.
10. Remember without ceasing that thou shouldst insist upon the prompt removal of Cancer after a sure diagnosis has been made, allowing of no delay, for death from Cancer is death in its most horrible form—slow and agonizing to the patient and a spectacle which breaks the hearts of those near unto him.

During "Cancer Week" the most eminent authorities in the country will discourse on the disease at the many meetings to be held in the United States and Canada.

\$1.00 DOWN SALE SELLERS KITCHEN CABINETS

"The Best Servant in Your House"

One Week ONLY
Beginning Saturday
October, 22, 1921

Now is the time to buy your Sellers Kitchen Cabinet — while only \$1.00 will bring it to your home. This way you can use it and enjoy it while making the remaining very easy payments.

SELLERS MASTERCRAFT

- No. 1—Oil Hand-rubbed Finish. Costs us \$9.70 extra, annually.

Chicago Children To Be Fed Sheep Glands

(By United Press)

Chicago, Oct. 19.—Subnormal pupils of Chicago public schools will be fed sheep glands to brighten their faculties, it became known today.

Dr. Frank G. Bruner, director of special schools, said experiments are to start within a week.

His announcement followed recommendations of Dr. Allen Hurly of the Chicago Tuberculosis Society and Dr. A. S. Hirshfield of the City health department.

Exact nature of the experiments was not disclosed but Dr. Bruner said the glands would be prepared in the public school kitchens and fed to the children who are below par in their studies.

According to Dr. Bruner, several thousand children will be given the treatment.

The vacant stare on the faces of pupils will change soon after the treatment is administered, it was said.

Dr. Bruner said that experiments with monkey glands had restored vitality in many cases.

"We intend to put new brains into the minds of pupils by use of the sheep glands," he said.

HARDING AGAINST ALLIANCE IN ARMS

Continued from Page One

voted, each of them in its own peculiar way to the common good, the progress, the advance of all human kind.

The Mayflower anchored in the York river early today and immediately after breakfast the presidential party came ashore. The whole village numbering less than 200 was out augmented by several hundred farmers who drove in from the surrounding country.

New York Stocks

(By United Press)

New York, Oct. 19.—The list held well right through the first hour on the New York stock exchange today.

Mexican Petroleum got as high as 97, but then reacted nearly a point. The contract of the British-Mexican Petroleum company with the Huasteca Petroleum Company for the supply of fuel oil for the year 1922, demonstrates beyond a doubt that the management of Mexican Petroleum is confident that Mexican Oil is not going to dry up in the near future.

The whole list acted well at the opening. Mexican Petroleum responded to a statement of E. L. Duany on the Mexican Oil situation by opening at 96 1/4, up 3/8.

Pan American made an early high at 44 1/2, up one point. Royal Dutch gained 7/8 at 43.

On a Chicago dispatch indicating the regular dividend on Pullman this stock opened at 89 up 1 1/2 and then ran up to 90.

Rails also worked higher and the average gain in dividend paying carriers at the opening was close to a half point. Steel common was up 1/4 at 78 1/2 and independent steels were also fractionally higher.

Sugars continued heavy with American Sugar common off 1/2 at 48 3/4.

Opening prices included:

Central Leather 27 3/8, up 1/4; U. S. Steel 78 1/2 up 1/2; Texas and Pacific 22 up 1/4; American Sugar 48 3/4 off 1/2; Great Northern pref'd 70 up 1/4; Retail Stores 52 5/8, off 1/4; Pullman 89 up 1 1/2; American Telephone 108, up 1/4; American Can 255-8, off 1/4; U. S. Rubber 48 off 1/4; Reading 68 1/2 up 1/4; Asphalt 52 3/4 up 1/4; Northern Pacific 73 up 1 1/4; Studebaker 72 1/2 up 3/4; Mexican Petroleum 96 1/4 up 3/8; Royal Dutch 43 up 7/8; Baldwin 85 1/2 up 1/2.

PRINCES IN AUTO MISHAP

London, Oct. 19.—The prince of Wales with his brother Prince Henry was in a motor crash Saturday and had a narrow escape, it was announced today. The princes were motoring near Cambridge, when their car collided with a motorcycle.

QUEBEC, Que.—The sheep industry in the province of Quebec has had a steady growth, and there are now more than 1,000,000 sheep in the province.

PERSONAL POINTS

—Lincoln Giffin was among the business passengers today to Indianapolis.

—Roll Richey of near Hamilton, O., came today for a few days visit among friends.

—Mr. and Mrs. L. H. Doughty went to Cincinnati this morning on a business trip.

—Miss Blanche Armstrong is spending several weeks in Missouri, the guest of relatives.

—Miss Zora Carney has left for a month's visit with relatives and friends in St. Louis, Mo., and Stillwater, Oklahoma.

—Mr. and Mrs. Sam Young have returned home from Kokomo where they spent a few days with Dr. and Mrs. Elmer Young of that city.

—Mrs. J. R. Whitton has returned to her home in this city after spending the week-end in Newcastle, the guest of her daughters.

—Joe Miller, formerly of this city, but now of Warsaw, Ind., came yesterday and attended the county meeting here today of the Odd Fellows.

—Mrs. Wilbur Kendall and son Robert have returned to their home in Greensburg after a visit with the Misses Elizabeth and Florine Grozier of this city.

—Mr. and Mrs. Orval Wells have returned to their home in Westport, Ind., after spending the week-end with Mr. and Mrs. M. V. Spivey and Mr. and Mrs. Walter Ray of this city.

—Mr. and Mrs. Blaine H. Ball of Siloam Springs, Ark., who have been visiting his mother, Mrs. Sarah Ball of this city, went to Lebanon, Ind., today for a visit with his nieces Mrs. Byron Jones and Mrs. James Hoy.

DISCUSSES UNEMPLOYMENT

Lloyd George Tells Commons it is Worst of The Century

London, Oct. 19—England is in the grip of the worst unemployment situation of the century, Premier Lloyd George declared in Commons today.

Derangement of trade of foreign exchange caused by the war was said to be the cause. Revival of England's foreign trade is vital, Lloyd George declared.

The government proposes to widen the export credit scheme to include the entire empire as well as foreign countries, he said.

More than 2,000,000 heaters for frost protection are in use in the orange groves of southern California.

RAIL STRIKE PEACE PLAN IS PREPARED

Continued from Page One

Bert M. Jewell, president, to discuss joining the brotherhoods in their strike October 30.

*One official of the Federation said it was likely the brotherhood chiefs would confer with heads of other union organizations tomorrow morning before the session with the railroad board.

Three board members representing the railroads, and the three representing the rail employees who are prepared to strike Oct. 30 met with the three public members to whip peace proposals in shape.

Chairman R. M. Barton, Secretary W. G. Hangar and Ben Hooper the public group, who just returned from Washington, carried the message of President Harding to other members.

Out of today's executives session of the board will come the complete proposition that the board has to offer the chiefs of the four big brotherhoods and the Switchmen's union who were summoned here for a conference tomorrow afternoon.

The government has let it be known that the railroad board will be backed to the limit and that means to enforce its mediation decrees will be found. This is one of the clubs the board will hold over both sides of the railroad controversy when it meets with the brotherhoods in an informal capacity tomorrow.

If necessary one board member pointed out, the administration could rush through an amendment to the transportation act putting "teeth" in it. The act now depends upon the force of public opinion to enforce its decisions.

These it was understood today from reliable sources are some of the demands that will be made to the men by the board:

- 1—Immediate suspension of the strike order of the brotherhoods.
- 2—Request to the leaders of the railroad department of the American Federation of Labor and other unions to hold up strike decisions for the present.

The brotherhoods will be asked to use their influence in swinging the other unions around to this point of view.

Demands to be made upon the railroads in view of bringing about:

- 1—Immediate translation of the 12 percent wage cut of last July—a saving of \$190,000,000 for the roads—into reduced freight rates.
- 2—Withdrawal by the executives for a definite period, the demand that workers wages be cut an additional 10 percent. This demand precipitated the present strike crisis.

Then it was pointed out, if both sides agree to these proposals, plans will be made to draw up lasting peace.

The board today had not yet decided to call in the executives at the same time the brotherhood chiefs meet tomorrow.

It was believed however that separate conferences with each side will be held before there is a general round table discussion as usually is the case in mediation.

Putting "teeth" in the Esch-Cummings act is the biggest club the board members hold over both sides. The railroads may be forced to bow to the edict of the railroad board—which after all is the will of President Harding and administration leaders—by threatening to withhold the \$500,000,000 that is due the carriers from the government and which the roads sorely need.

As the board met in executive session today, Bert M. Jewell, president of the railway department of the American Federation of Labor and the executive committee repre-

sending the 13 district unions belonging to the organization, met to discuss the calling of a strike.

No immediate strike call will come out of the meeting which was called some time ago, it was authoritatively stated. To do so at this time, when mediation plans are under way would be an affront to the peace efforts of the administration.

The leaders believe, however they can meet and discuss plans without any embarrassment to the administration. Then they said if peace plans fall through they will be prepared for a strike.

Railroad executives were silent today on the proposed request of the railroad board that they hold up their demand for 10 per cent cut in pay and put into effect immediately a freight rate reduction commensurate with the wage cut of July.

Shortly after this was proposed in a statement by the public group of the railroad board in Washington a few days ago, Samuel Felton, president of the Chicago Great Western stated it was not feasible as the roads already had cut freight rates as much as possible.

Brotherhood chiefs, at that time, were inclined to believe, according to their utterances, that the plan would not work out.

Union Heads in Secret Session

Cleveland, Ohio, Oct. 19—While the railway labor board was working for peace in the transportation situation at Chicago today executive committees of three of the big brotherhoods were in secret session here preparing for war. This conference, representing the Brotherhood of Railway trainmen, Brotherhood of Locomotive Engineers and Brotherhood of Enginemen and firemen took the place of the proposed war council of all brotherhood chiefs, which was suddenly abandoned again after once before having been called off and then rescheduled.

The war council of railway brotherhood chiefs met informally here to discuss plans for the "little peace conference" in Chicago tomorrow.

Preparatory to leaving for that city to confer with members of the railway labor board in a final effort to avert the nation wide transportation strike scheduled to begin Oct. 30, the union leaders talked over the situation with particular reference to the new conditions brought about by the boards eleventh hour, move.

Participating in the informal meeting here today were W. G. Lee, president of the Brotherhood of Railroad trainmen, Warren S. Stone, grand chief of the brotherhood of Locomotive Engineers and W. S. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen. It was believed that T. C. Cashen, president of the Switchmen's union of North America and L. E. Sheppard, president of the Order of

Hardware **S. L. HUNT** Hardware

Railway conductors might also be present. All were to leave for Chicago before night.

There was a distinct feeling of optimism in union headquarters before the meeting of the war council which before the labor boards action necessitated a change of program was to have devoted today solely to arranging final details for the walkout of 2,000,000 railway and allied employees.

"If the president really meant what he said when he declared he was ready for a showdown as to whether the railway labor board orders were to be obeyed, it is a notable advance toward settlement of the whole trouble" Lee said.

There was considerable speculation in "neutral" quarters here as to the outcome of the "little peace conference" in Chicago. It was believed that a compromise solution would be worked out which would permit both sides in the controversy to withdraw from their present positions and claim a moral victory. This, it was pointed out, might take the form of an agreement by the executives for a nominal reduction in freight rates at once and acceptance by the Brotherhoods of a portion of the new wage cut—the balance deferred indefinitely.

THIN, FLAT HAIR

GROWS LONG, THICK AND ABUNDANT

"Danderine" costs only 25 cents a bottle. One application ends all dandruff, stops itching and falling hair, and, in a few moments, you have doubled the beauty of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. "Danderine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant.

Will The Farmer Buy

Is the farmer going to buy this fall? As one writer puts it, "many a manufacturer and merchant would sleep better tonight if he knew the answer".

A leading farm journal, determined to find out whether the American farmer will be in the market for purchases and, if so, what will he buy? The research department of this farm publication adopted a

novel plan to get the right answer. A man named Smith in the research department calculated if he sent his questions to all the Smiths on the publication's lists he would get a real line on the farmers' idea on the subject of fall purchases. So out went a questionnaire to the 12,824 Smiths who were subscribers to the farm journal. Then replies, which were heavy, were used as a basis for estimating what the entire 1,100,000 farm subscribers were going to do with the money they receive from the marketing of their products.

One of the most interesting features developed by the questionnaire is that eleven and five-tenths per cent of the Smiths will buy automobiles making a total of 126,500 cars to be bought this fall by the 1,100,000 farmers. In addition to showing the number of cars for which farmers will be in the market, the answers revealed that 116,200 have already determined upon the make of car which they will purchase.

Shoes Fitted by X-Ray

The very modern shoe man does not trust to moral suasion to convince his customer that a shoe is too large or too small. He takes the customer back to the X-ray machine and shows him a picture of his feet in the shoes. The result is that a customer usually leaves the store with a pair of shoes that fit his feet instead of his pride or his imagination.

The customer looking down into the machine, sees with startling clearness the outlines of the bones of his feet and the dark shadow of the shoes about them. The salesman can see the picture also, and there can be no argument as to whether the shoes do or do not cramp any part of the feet. The picture, flattering or not, is the truthful record of photography.

It is strange that civilized humanity, so sensible in the main, and so impatient of suffering in the rest of the body, has been so idiotic about its feet.

Scientists of the world have been meeting in New York. Scientists pride themselves on their exactitude, yet what is most interesting is their speculativeness.

The average person generally objects to being termed only an average.

The public official who makes a big noise is often a firecracker unaware.

Armistice Day will soon be with us, and a few may think to remember it. What is the date?

Current Comment

The Strike Threat
(Providence Journal)

A report that the railroad men of the country are strongly in favor of a strike against the twelve percent reduction in wages ordered by the Labor Board, is by no means as serious as it might be, notwithstanding the fact that in all the union organizations there are hot-headed individuals who find enjoyment in labor disturbances. The American people know that, considering the circumstances, a cut of twelve percent, is very small, the wages of many of the men having been advanced from one to two hundred percent during the past few years. Furthermore unemployment is so widespread that the chances of winning a strike are so remote as to be hardly worth considering. The absolute failure of the strikes of the marine workers and the steel men foreshadows a like fiasco in the railroad field if the men should be so foolish as actually to quit work.

The probability is that neither the leaders nor the rank and file of the men have any desire to strike on such an issue as a twelve percent reduction in wages. The statement that the strike talk is intended to scare the Labor Board into sanctioning the continuance of the Government working rules doubtless has a substantial basis. The testimony presented to the board shows that the rules were devised for the purpose of increasing the cost of labor; two or three men under the rules are required to do the work of one man, and in addition there are heavy charges for over time. The loading provided by them, and the evidence as to rules indicates that employment of unnecessary men into earnings more heavily than the inflated wages carried on from the war period. There is no doubt that the rules ought to be abolished or greatly modified, for under present conditions the public is being assessed in high freight and passenger rates for the purpose of maintaining abnormal payrolls and easy jobs.

The day of normal prices is being postponed by the opposition of workers to a reasonable programme of deflation. This is pointed out in a letter of the President of the Brotherhood of Railway Trainmen on the wage question. He reads the men that millions of workers are out of employment; that nearly all classes of labor have been forced to accept reductions during the past year and that the Government reports show that since July 1, 1920,

Prince Albert's a new
note in the joys of rolling 'em!

Talking about rolling your own cigarettes, we'll tell you right here that Prince Albert tobacco has 'em all lashed to the mast!

You've got a handful of happiness coming your direction when you pal it with P. A. and the makin's papers! For Prince Albert is not only delightful to your taste and pleasing in its refreshing aroma, but our exclusive patented process frees it from bite and parch!

And, for a fact, rolling up Prince Albert is mighty easy! P. A. is crimp cut and stays put and you whisk it into shape before you can count three! And, the next instant you're puffing away to beat the band!

Prince Albert is so good that it has led four men to smoke jimmy pipes where one was smoked before! It's the greatest old buddy-smoke that ever found its way into a pipe or cigarette!

A GUNN HAYDON

AMUSEMENTS

His Role of Avenger

Justice is the theme of the William Fox production "When a Man Sees Red", which comes to the Mystic Theatre today, with William Farnum as the Star-justice, which a brother demands for a wrong done to his sister.

"He cannot enlist the aid of the law, for the name of the wrongdoer is unknown to him; but he makes a vow to devote the rest of his life, if necessary, to tracking down this destroyer of his happiness."

The adventures he encounters in this unrelenting search furnish a series of thrilling situations building to a climax as dramatic as any ever portrayed on the screen, when pursued and pursued meet and retribution is exacted on an island inhabited by savages, where the survival of the strongest is the only law.

William Farnum has made many great pictures, but the consensus of opinion seems to be that none has been stronger than this. The role he enacts, it is said, affords him wonderful opportunities to register all human emotions—which, with an actor, of Farnum's well known histrionic ability, means a superlative performance.

WILL NEVER RESUME WORK

Opinion Advanced That Sandusky Cement Company Will Never Open

(By United Press)

Syracuse, Oct. 19.—The \$1,500,000 Sandusky Portland Cement company's plant, which formerly employed several hundred men, but which has been idle for a long period, never will resume operations, according to reliable information received here.

The suspension of the plant was due to the fact that the process of manufacturing cement from limestone is much cheaper than producing it from marl, found here in large quantities. There are limestone deposits here, but engineers who have made an investigation hold that it will not pay to bring the rock to the surface.

It was reported to the Daily Republican Monday and printed that George W. Hall of Washington township had passed his ninety-second birthday last week. This was incorrect as the man referred to was George W. Legg of Washington township.

PLENTY OF GAME IS REPORTED IN SEASON

More Rabbits, Ducks and Quail Than There Has Been in the State For Several Years

QUAIL SEASON OPENS NOV. 10

(By United Press)

Indianapolis, Ind., Oct. 19.—Game is plentiful this season, George N. Manfeld, state fish and game superintendent asserted today.

There are more rabbits, ducks and quail than there have been for years. In addition, he said, prairie chickens are plentiful in western Indiana. All Indiana game is now "in season."

Rabbits are eating the bark off young fruit trees in all parts of the state. Mallard ducks are found in great numbers on any Hoosier body of water.

The rigid enforcement of the new ferret law prevents wholesale killing of rabbits. In past years rabbits have been shipped in carload lots from rural districts to the city.

Manfeld said abundance of ducks is due to the law which prevents hunters from shooting them before sunrise and after sunset.

The quail season opens Nov. 10 and closes Dec. 20. This short season and the limit of fifteen a day to each hunter is responsible for their intense propagation.

Country Club Organized And Board Directed to Buy a Site

Continued from Page One

stitution and by-laws should be drawn up by a committee of three appointed by the president, to incorporate all of the sections and amendments of the by-laws adopted last night, and that the stock certificates should state that the stock was non-assessable and non-transferable except on the books of the club.

Dr. J. C. Sexton, president of the club, then appointed John A. Tittsworth, Ernest B. Thomas and J. T. Arbuckle to draw up the constitution and by-laws and the articles of incorporation.

The meeting was called to order by Dr. Sexton, who made a plain statement of what had been accomplished by the board of directors which was elected over a year ago, but which had never found a satisfactory site at a reasonable price until a few weeks ago.

Dr. Sexton pointed out that the Robert A. Innis land, located one and one-half miles northwest of the

city, was ideally situated, that the topography was nothing short of perfect for a golf course and that its condition was such that the club could be in operation next spring.

Dr. Sexton said that there was forty-five acres in sod, only five acres being in corn, which would require special work to put it in grass by next spring. The other ten acres is a beautiful grove, the president stated, which may be fitted up with recreational equipment for children. The president referred to this feature as especially desirable as children may play there without being in danger of injury from being hit by golf balls.

Dr. Sexton said that Mr. Nelson, a golf course expert who laid out the course at Miami, Florida and two of the larger courses in Indianapolis, examined the proposed site here and pronounced it exceptionally well suited for a golf course, not only with respect to its present condition, but as to topography and soil.

Dr. Sexton said the board had estimated that after \$12,000 had been invested in the land, \$7,000 would be required for a club house and \$5,000 for building a golf course and making other improvements, which lead the board to believe that \$25,000 would be needed to finance the club.

Dr. Sexton said there were four water wells and one gas well on the land, but that they would all have to be cleaned and that another well would have to be dug at the club house. He also pointed out that there was a house on the tract which would be suitable for a custodian and that there were plenty of outbuildings to provide a place for machinery and equipment needed by the club. He likewise stated that there was enough fence on the place to provide all of the fence which would be needed for twenty-five years.

The contract with the gas company owning the gas well provides the owner of the land on which it is located shall receive \$50 a year rental in gas.

The constitution and by-laws provide membership shall be composed of stock, associate, lady, household, non-resident, clergy and junior members.

The stock membership shall be composed of persons holding one share of common stock, who shall be regularly proposed and elected. This class will be limited to 200 members and will pay dues of \$25 a year. None but stock members will be permitted to vote or hold office. Stock membership is transferable only to persons elected by the board of directors.

Associate members will pay a

AMUSEMENTS

His Role of Avenger

Justice is the theme of the William Fox production "When a Man Sees Red", which comes to the Mystie Theatre today, with William Farnum as the Star-justice, which a brother demands for a wrong done to his sister.

"He cannot enlist the aid of the law, for the name of the wrongdoer is unknown to him; but he makes a vow to devote the rest of his life, if necessary, to tracking down this destroyer of his happiness."

The adventures he encounters in this unrelenting search furnish a series of thrilling situations building to a climax as dramatic as any ever portrayed on the screen, when pursued and prisoner meet and retribution is exacted on an island inhabited by savages, where the survival of the strongest is the only law. William Farnum has made many great pictures, but the consensus of opinion seems to be that none has been stronger than this. The role he enacts, it is said, affords him wonderful opportunities to register all human emotions— which, with an actor, of Farnum's well known histrionic ability, means a superlative performance.

WILL NEVER RESUME WORK

Opinion Advanced That Sandusky Cement Company Will Never Open

(By United Press)

Syracuse, Oct. 19.—The \$1,500,000 Sandusky Portland Cement company's plant, which formerly employed several hundred men, but which has been idle for a long period, never will resume operations, according to reliable information received here.

The suspension of the plant was due to the fact that the process of manufacturing cement from limestone is much cheaper than producing it from marl, found here in large quantities. There are limestone deposits here, but engineers who have made an investigation hold that it will not pay to bring the rock to the surface.

It was reported to the Daily Republican Monday and printed that George W. Hall of Washington township had passed his ninety-second birthday last week. This was incorrect as the man referred to was George W. Legg of Washington township.

PLENTY OF GAME IS REPORTED IN SEASON

More Rabbits, Ducks and Quail Than There Has Been in the State For Several Years

QUAIL SEASON OPENS NOV. 10

(By United Press)

Indianapolis, Ind., Oct. 19.—Game is plentiful this season, George N. Manfeld, state fish and game superintendent asserted today.

There are more rabbits, ducks and quail than there have been for years. In addition, he said, prairie chickens are plentiful in western Indiana. All Indiana game is now "in season."

Rabbits are eating the bark off young fruit trees in all parts of the state. Mallard ducks are found in great numbers on any Hoosier body of water.

The rigid enforcement of the new ferret law prevents wholesale killing of rabbits. In past years rabbits have been shipped in earload lots from rural districts to the city.

Manfeld said abundance of ducks is due to the law which prevents hunters from shooting them before sunrise and after sunset.

The quail season opens Nov. 10 and closes Dec. 20. This short season and the limit of fifteen a day to each hunter is responsible for their intense propagation.

Country Club Organized And Board Directed to Buy a Site

Continued from Page One

stitution and by-laws should be drawn up by a committee of three appointed by the president, to incorporate all of the sections and amendments of the by-laws adopted last night, and that the stock certificates should state that the stock was non-assessable and non-transferable except on the books of the club.

Dr. J. C. Sexton, president of the club, then appointed John A. Tittsworth, Ernest B. Thomas and J. T. Arbuckle to draw up the constitution and by-laws and the articles of incorporation.

The meeting was called to order by Dr. Sexton, who made a plain statement of what had been accomplished by the board of directors which was elected over a year ago, but which had never found a satisfactory site at a reasonable price until a few weeks ago.

Dr. Sexton pointed out that the Robert A. Innis land, located one and one-half miles northwest of the

city, was ideally situated, that the topography was nothing short of perfect for a golf course and that its condition was such that the club could be in operation next spring.

Dr. Sexton said that there was forty-five acres in sod, only five acres being in corn, which would require special work to put it in grass by next spring. The other ten acres is a beautiful grove, the president stated, which may be fitted up with recreational equipment for children. The president referred to this feature as especially desirable as children may play there without being in danger of injury from being hit by golf balls.

Dr. Sexton said that Mr. Nelson, a golf course expert who laid out the course at Miami, Florida and two of the larger courses in Indianapolis, examined the proposed site here and pronounced it exceptionally well suited for a golf course, not only with respect to its present condition, but as to topography and soil.

Dr. Sexton said the board had estimated that after \$12,000 had been invested in the land, \$7,000 would be required for a club house and \$5,000 for building a golf course and making other improvements, which lead the board to believe that \$25,000 would be needed to finance the club.

Dr. Sexton said there were four water wells and one gas well on the land, but that they would all have to be cleaned and that another well would have to be dug at the club house. He also pointed out that there was a house on the tract which would be suitable for a custodian and that there were plenty of outbuildings to provide a place for machinery and equipment needed by the club. He likewise stated that there was enough fence on the place to provide all of the fence which would be needed for twenty-five years.

The contract with the gas company owning the gas well provides the owner of the land on which it is located shall receive \$50 a year rental in gas.

The constitution and by-laws provide membership shall be composed of stock, associate, lady, household, non-resident, clergy and junior members.

The stock membership shall be composed of persons holding one share of common stock, who shall be regularly proposed and elected. This class will be limited to 200 members and will pay dues of \$25 a year. None but stock members will be permitted to vote or hold office. Stock membership is transferable only to persons elected by the board of directors.

Associate members will pay a

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

"They Satisfy"

Human Need

These two words express the biggest, the most far reaching the most vital idea known to the mind of man. The Science, Art, Invention, Discovery, Individual, Organization, Society or Government that adequately supplies this need is indispensable to the welfare of human society.

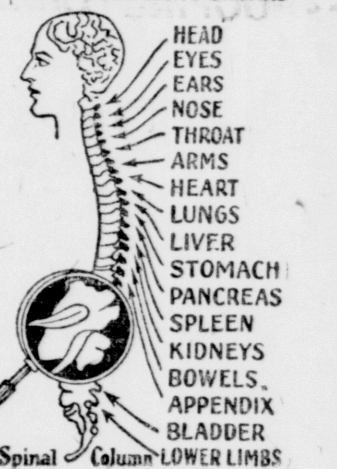

One of man's most fundamental needs, without which he can do very little toward supplying other great human needs is

Good Health

Of all Sciences, Arts Inventions and Discoveries intended to supply this great need for the Human Race, Chiropractic stands in the forefront and, according to present indications, will soon be far in the lead of other methods. There is just one great fundamental underlying reason for this. Chiropractic has allied herself with the laws of NATURE.

In fact, one definition of Chiropractic reads: "Chiropractic is the Science and Philosophy of things Natural." Science deals with the facts of nature, therefore you can see why,

HEALTH FOLLOWS
CHIROPRACTIC CORRECTS
PRESSURE ON SPINAL
NERVES IN DISEASES OF
THE FOLLOWING ORGANS:

Chiropractic Is Scientific

When the vertebrae of the spinal column lose their normal position for any reason, this condition produces pressure upon the great nerves and CAUSES sickness. Chiropractic Adjusts the vertebrae to their normal position according to nature's design, and the power of Nature itself restores to good health.

SOCIETY

Edited By Miss Edna Krammes
Phone 1111

The Mattox Circle, Ladies of the G. A. R., will meet in the assembly room of the court house Friday afternoon at two o'clock. A good attendance is desired.

Mrs. A. C. Jeffrey was hostess for the members of the Ladies Aid Society of the First Presbyterian church yesterday afternoon. The regular program and business session was carried out at this meeting, after which a social hour was enjoyed by those present.

The Willing Worker's Sunday school class of the St. Paul's M. E. church which was to have met with Miss Sadie Williams tomorrow afternoon, will not meet at that time but the meeting has been postponed until Thursday afternoon, October 27. At that time it will meet with Miss Williams.

Mr. and Mrs. Levi Retherford of this city celebrated their sixty-fifth wedding anniversary today at their home in North Main street informally. Although they did not have any guests invited, several of their friends and relatives called on them during the day in aiding them to remember the day.

Mr. and Mrs. H. E. Ringel have returned to their home in Cleveland after a week's visit with Mr. and Mrs. Alvan Moore and other relatives in this city. A number of dinner and social parties were given in their honor during their visit in this city, among which was a dinner at the Social Club last evening.

Mrs. Ed Pitman delightfully entertained sixty members of the Ladies Aid Society of the St. Paul's M. E. church yesterday afternoon at her home in North Morgan street. An informal social afternoon was enjoyed by those present. In serving the dainty refreshments the hostess

was assisted by Mrs. Clara Ruddell and Mrs. Virgil Maffett.

Mr. and Mrs. Omer Mahan entertained Sunday with a bountiful pitch-in dinner at their home southwest of Orange. The guests were Mr. and Mrs. L. R. Webb, Mr. and Mrs. Elmer Branam, Mr. and Mrs. Clem Gardner and daughters Von, Ruth and Ruby, Mr. and Mrs. Herbert Branam and daughter Mary Martha, Mr. and Mrs. Martin Mahan and daughter Cora, Mrs. Mollie Gardner and the Misses Louise and Bertha Snoddy.

The Misses Zora Carney and Edith Brown and Mrs. Walter Ray entertained with a miscellaneous shower last evening at the home of Miss Brown in North Main street, honoring Miss Elizabeth Gronier, a bride-elect. A musical program was given during the evening by the Misses Florine Gronier, Gladys Titworth and Rowena Kennedy after which a prettily appointed two course luncheon was served. The out-of-town guests were Mrs. M. W. Harkins of Anderson, Mrs. Wilbur Kendall and Miss Helen Thompson of Greensburg, and Miss Ruby Howell of Newcastle.

Rushville ladies who for several seasons past have found so much pleasure and profit in Miss Margaret Donnan's Lecture Classes in Literature will be glad to learn that she will return for her season of lectures on Saturday, October 22. The meeting will be held at the home of Mrs. F. R. McClanahan at 2:30 p. m.

Miss Donnan has recently returned from a three months' stay in the east where she devoted her time to preparation for the coming year's work, seeing the latest plays and putting herself in touch with every interest that the literary world is taking account of. From her wide

Fur Coats, Wraps, Capes, Stoles, Scarfs, Boas and Chokers

LOWERED PRICES

The prices quoted by Mr. Holland at this opening will prove to be a powerful incentive to purchase now. The excessively high prices of the past few years are things of the past, and you will be pleasantly surprised by the unusually attractive offering.

Our satisfactory connection of over 25 years with the Annis Fur Co. assures you authentic style, highest qualities and complete satisfaction. Any piece of fur you may select will be delivered to you at once from this display, or ordered to come later at your option.

Your Presence is Requested and Urged

BUY NOW

Furs are no longer reasonable apparel, but year around useables. No longer can they be considered purely luxuries. Wear them now with your new fall clothes. A reasonable deposit will hold them for later delivery. Why not dispose of that Christmas problem now?

The Mauzy Company

and intimate acquaintance with many well known literary people she gains much rare and valuable information about books and writers and her clientele may always be assured of getting some fresh and original viewpoint.

In August Miss Donnan attended the tercentenary celebration of the landing of the Pilgrims at Plymouth. Her account of this performance, published recently in the Indianapolis News, received hearty commendation from Prof. George Baker of Harvard, the author of the pageant.

Those who have observed that Miss Donnan's lectures are always in the vanguard of the newest literary interest, will not be surprised to learn that she has chosen biography for her formal subject this year; the lectures to be based upon suggestions in "The Art of Biography" by William Roscoe Thayer. She will also keep to her delightful fashion of preceding her formal subject with the latest literary gossip, and discussion of the best contemporary novels, plays, essay and poetry.

The announcement of the approaching marriage of Mrs. M. W. Harkins of Anderson and the Rev. L. E. Brown of this city is contained in the following from the Anderson Herald of Tuesday.

The marriage of Mrs. M. W. Harkins and Rev. L. E. Brown, pastor of the Main Street Christian church Rushville, will take place next month. The announcement was made last evening when Mrs. Harkins entertained her class of young ladies of the Central Christian church, in the private dining room at the Y. M. C. A. home, where she has been "House Mother" for the "Y" boys for the past four years. The class colors of yellow and white were employed in an artistic decoration, and tiny cards, bearing the announcement were concealed in the petals of Ophelia rose buds, which were given for favors.

Mrs. Harkins has occupied a large place in the home life of the Y. M. C. A. where, through her sympathy and love for boys, she has established an atmosphere of home, not only through her activity in establishing "Mother's Day", but in every day life. Her activities in the Central Christian church began twenty years ago, when Mr. Harkins was pastor of the church and since his death, her life has been devoted to the work of the church and institutional work.

The Rev. Mr. Brown is well known as a lecturer and conducted special services here during the pastorate of Rev. Harkins, with whom he was closely associated.

The hostess was assisted last evening by Miss Katherine Hodges. The guests were: Mrs. Grace Christman, Mrs. Marie Herbst, Mrs. Clara

Hancock, Mrs. Alta Little, Mrs. M. J. Rozelle, Mrs. Marguerite Sheets, Mrs. H. C. Knowles, Mrs. Lucille Morris, Stella James, Mrs. Eva Hughes, Miss Anna Biddle, Miss Clara Blizard, Miss Erma Blizard, Miss Gladys Bookout, Miss Loretta Brown, Miss Mary Clifford, Miss Gertrude Cook, Miss Nelle Daniels, Miss Pauline Day, Miss Myrtle Davis, Miss Nelle Free, Miss Gladys Gale, Miss Glee Gaylor, Miss Lucille and Miss Madonna Hamm, Miss Hazel Kendall, Miss Esther Kennedy, Miss Greta Lee, Miss Myra Lewis, Miss Omega Rose, Miss Emma Sample, Miss Margaret Wilson, Miss Addie Cartwright, Miss Belva Jones, Miss Ruth Brown, Miss Esther Pitts, Miss Nola Noland, Miss Cecile Koeniger, Miss Helen Starr, Miss Mildred Miles, Miss Naomi Trafzar, Miss Marie Christianson, Miss Edna Cleaver, Miss Helen McDonald, Miss Frances Miller, Miss Adrene McMahan, Miss Madge Melson, Miss Margaret English.

Mr. and Mrs. Willard Robinson of near Connersville and Mr. and Mrs. George L. Hackleman of Coweta, Oklahoma, were entertained at a high noon dinner party Monday at the home of Dr. Frank Hackleman and sister, Miss Libbie Hackleman, in North Morgan street. Mr. and Mrs. George Hackleman have returned to their home in Oklahoma after a visit with relatives here and in Connersville.

Miss Bernice Miller, daughter of Lora Miller of Walker township, and Charles J. Ellison, son of Alonzo Ellison of west of the city, were quietly married this morning at the Main Street Christian parsonage by the Rev. L. E. Brown. The bridal couple will leave next week for a wedding trip by motor to Phoenix, Arizona.

Mr. and Mrs. Clyde Wilson, living southeast of the city, pleasantly entertained at high noon dinner Sunday Mr. and Mrs. Walter Thomas and Mr. and Mrs. Allen McCrory and sons of Connersville. The afternoon guests were J. B. McFarlan and son John, Mr. and Mrs. George Brown of Connersville and Clarence Kenner and family of Flatrock. During the afternoon Miss Alice Alexander furnished instrumental music.

The W. R. C. will meet in called session Friday afternoon at two o'clock in the P. O. S. of A. hall to make arrangements for the district meeting to be held here Wednesday, October 26 and to discuss any other business that may come before the meeting.

Lurline Council number 296, Degree of Pocahontas will meet in regular stated session on Thursday night at 7:30 o'clock at the Red Men hall, and all members are urged to attend the meeting.

WOMEN'S CLUBS OF AMERICA MEETING

Four Hundred Members Gather in Muncie, Ind., Today For 32nd Annual Convention

INDIANA WOMAN CANDIDATES

Muncie, Ind., Oct. 19—Four hundred club women representing practically every city and town in the state gathered here today for the thirty-second annual convention of the Federated Women's clubs of America.

The three day program opened with a reception for the visitors and the meeting was held at the First Methodist church. Among the prominent speakers during the session will be Mrs. Thomas G. Winters, of Minneapolis, president of the national federation; Mrs. Percy Penypacker, Texas, past-national president; Mrs. Rose Berry, national chairman of fine arts; Mrs. Mary Obendorfer, national chairman of music; Miss Rose Brenner, national president of the council of Jewish women, and others.

The race for the presidency for a term of two years which is always a heated one, promises to be between Mrs. Ella Kehrer of Anderson and Mrs. C. M. Pittenger of Indianapolis.

NOT TO WITHDRAW TROOPS

United States Not to Act at Once Though German Treaty is Ratified

Yorktown, Va., Oct. 19—(With President Harding's Official Party)—Ratification of the treaty with Germany does not mean that the American troops will be removed from Germany in the near future, it was learned from a member of President Harding's official party today.

Some of the soldiers may be recalled, but the majority will continue the occupation, this official said. "The American flag will continue to fly on the Rhine" he said.

Withdrawal of the entire American force, "will come only in the due course of time" he added.

Mr. and Mrs. Ed Haywood of this city have as their house guests R. B. Whaley, Mrs. F. H. Rankin and Russel Hudson of Cynthia Ky.

The observatory of Cracow, Poland, has issued some of its publications in a language devised by Prof. Peano, of Turin, known as "Interlingua". It is essentially a much simplified form of Latin.

SEVEN NURSES ARE POISONED BY CANDY

Fight For Lives in Chicago Hospital After Eating Home Made Fudge Sent to Miss Rosenfeld

CONTAINED CYANIDE POISON

(By United Press)
Chicago, Oct. 19—Seven nurses of the West End Hospital fought for their lives today after they had eaten candy containing cyanide poison. The candy, which was addressed to Miss Rosenfeld was home made chocolate fudge.

A typewritten card in the box read: "From a patient who was an ardent admirer, this candy was faithfully made". Miss Rosenfeld, when she received the box of candy, gathered other nurses about and offered them some.

In addition to Miss Rosenfeld, these others were desperately ill: Teresa Hife, Alma Dormfield, Helen Leslie, Anna Ruhle, Daisy Casey and Grace Breakstone. Analysis of the candy by physicians showed it contained poison to kill every person in the hospital. Every portion and crumb of the candy contained poison.

Cyanide takes life quicker than any other poison, Dr. H. D. Valin, chemist at the hospital said. Death usually comes in a few minutes, he said. Within a few minutes after the girls had eaten the candy they were writhing in agony and then fell unconscious on the floor. Quick use of stomach pumps saved their lives, it was said at the hospital.

S. H. STEVENS SUCCUMBS

Former Jackson Township Man Dies at Elwood Tuesday Afternoon

S. H. Stevens, age sixty-three years, a former resident of Rush county, died at his home in Elwood Tuesday afternoon at one o'clock, according to word received here today by relatives. Heart disease was given as the cause of his death.

Mr. Stevens was born and reared in Jackson township and left this county about thirty years ago. He is survived by the widow and five children, besides two brothers, J. A. Stevens of this city and I. N. Stevens of Mays, and a sister, Mrs. R. J. Swinney of north of Elwood. The funeral arrangements were not known here today, but it was presumed they would be held Thursday.

WHAT IS A ONE CENT SALE?

It is a sale where you buy an item at the regular price—then another item of the same kind for 1c. As an illustration: The standard price of Rexall Tooth Paste is 25c. You buy a tube at this price, and by paying 1c more, or 26c, you get two tubes. Every article in this sale is a high-class standard piece of merchandise, just the same as we sell you every day at regular prices and have sold you for years.

A NEW WAY OF ADVERTISING

This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full-size package of high standard merchandise for 1 cent. It costs money to get new customers, the loss taken on this sale will be well spent if the goods please you.

Lumber and Materials for Winter Repairs

PRACTICALLY everyone predicts a long and excessively severe winter.

We don't predict. It is our business to sell you the materials necessary to put your residence, barn and poultry houses in condition to withstand the severity of cold to which you and your stock are not accustomed.

Make repairs and tighten up now. You can not get satisfactory results from a person or an animal that is half frozen.

IDLE 12 MONTHS HE IS NOW BACK ON JOB

Ohio Man Lost a Year on Account of Stomach Trouble—Is Now Well and Strong

"Only a man who has to work for a living knows what it means to get back on the job after not hitting a lick of work for a whole year. I lost twelve months straight time on account of stomach trouble. One of the worst cases I guess any man ever had. Tanlac not only made me a well man again but built me up 19 pounds in weight. I am writing all my friends in other cities to tell them of the wonderful news."

The above statement was made by George B. Lowe, well-known employee of the Goodyear Tire and Rubber Co., living at 451 McGowan St., Akron, Ohio.

Tanlac is sold in Rushville by F. B. Johnson Drug Co. and by leading druggists everywhere. Advertisement

Hupmobile

Where, within \$400 of the new Hupmobile price, would you match the sound, known value of the Hupmobile? If you pay more, would the value be equally greater? At a lower price, would less in the car, and from the car, satisfy you?

"We are on the square"

FACTORIES RESUME WORK

Two Muncie Concerns Will Again Operate Full Time

Muncie, Ind., Oct. 19.—The "Hinds Dauch Paper company" which suspended operations several weeks ago, resumed operations in part Tuesday and announced it would be operating in full within two weeks. It employs 350 men.

The Muncie Gear Works employing 500 men will resume operations in full within a week.

Work has been begun on the construction of a new boulevard skirting White river, the improvement having been authorized by the city council as a means of providing work for Muncie's unemployed.

W. W. SNIFF TO SPEAK

At the tomorrow "Church Night" at the Main Street Christian church the official board will have charge of the program. The Rev. W. W. Sniff of Union City, a former pastor of this church, is expected to be present and make a short talk. His many friends will be pleased at this opportunity to see, and hear him.

IS IMPROVING

Mrs. John M. Depwee, daughter of Mr. and Mrs. L. H. Doughty, who has been ill, is improving.

A Good Looking Woman Is Always A Well Woman Health Is Most Vital to You. Hear What Mrs. McGregor says

Lanorte, Ind.—"About twenty years ago I first became acquainted with Dr. Pierce's Favorite Prescription. It was during expectancy and I was very frail and delicate, but the 'Favorite Prescription' strengthened me and I had comparatively no suffering. My baby was a strong, healthy girl and has always been fine and healthy. For the expectant mother, I think there is nothing to equal the 'Favorite Prescription.' And I always keep Dr. Pierce's Pleasant Pellets in my medicine closet for immediate use and feel that I couldn't keep house without them."—Mrs. Minnie McGregor, 612 Clement St.

The use of Dr. Pierce's Favorite Prescription has made many women happy by making them healthy. Get it at once from your nearest druggist, in tablets or liquid, or send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial pkg.

DEGRADE RECALL ELECTION FIGHT

"The House That Bill Built" May Prove The Undoing of None Partisan League in N. Dakota

FIGURES IN THE CAMPAIGN

Independents Claim House Cost \$18,000 While Builders Association Loaned More Than \$5,000

Fargo, N. D., Oct. 19.—"The house that Bill built" may prove the undoing of the non Partisan league in North Dakota. North Dakotas politics have long been rancorous with personalities, but the recall election campaign now on is witnessing the heights of vilification.

"The house that Bill built" stands in a pretty residence section of Fargo, new and imposing, although not in the class of mansions. If it did not figure strongly in the election campaign it might be termed a "nice house."

Independents opposing the Non Partisan League program in the recall election Oct. 28, are trying to bring the house "down around the ears" of the Non Partisan officials and their program. It was built by William Lemke, attorney general from funds supplied by the Home Builders Association, a Non Partisan institution of the state government.

Independents claim that the house cost from \$11,000 to \$18,000, while the law specifies that the association may loan only up to \$5,000 for home building. Pictures of the house are being used in all Independent newspapers in connection with the campaign. Independent headquarters here are maintaining free bus service to take voters out to see the house.

The Independents seek to recall Attorney General Lemke, Governor Lynn Frazier and Commissioner of Agriculture and Labor John Hagen. These three officials form the state industrial institutions including the Home Building Association.

NOTICE TO ROAD CONTRACTORS

State of Indiana, Rush county, ss.: Notice is hereby given that the board of commissioners of said county, at their office in the court house at Rushville, Indiana, will receive sealed proposals for the improvement of a certain highway 2835 feet in length in said county by grading, draining and paving with macadam as set out in the specifications, plans and profile now on file in the office of the auditor of said county, by and under the laws of the State of Indiana. Said sealed proposals will be opened and the contract awarded for said improvement on the 29th day of October, 1921. Bids or proposals will be received up to 2 o'clock p. m. on said date.

The said road to be improved is located in Orange township, in Rush county, Indiana, and is to be known as the Francis Hurst, et al. road when so improved.

Bids will be for the completion of the said improvement in accordance with the plans, profile and specifications in the office of the auditor of said county, and shall include all labor and material for said work. In no case will extra compensation be allowed for any additional work alleged to have been done by the contractor or contractors to whom is awarded the contract.

Each bid shall be accompanied by a personal or surety bond in a sum equal to double the amount of the bid filed for the work bid on, to be approved by the board of commissioners of said county. Said bond shall be conditioned for the faithful performance of the work; the sureties, if personal, shall be resident freeholders of the State of Indiana, one of whom shall be a resident of Rush county.

Said bond shall be for the benefit of any person, persons or corporation who shall suffer any loss or damage by reason of any such bidder failing or neglecting to enter into a contract to perform such work awarded by the said board of commissioners or to carry out the same in any particular or to pay for any labor or material which may have been furnished to any such contractor or contractors or to any subcontractor, agent or superintendent under him, in the construction of said work.

Said improvement will be let as a whole to the lowest responsible bidder upon affidavit of noncollusion, which must be submitted with the bid, and upon failure to submit such affidavit such proposal or bid will be rejected by the board; and the board reserves the right to reject any and all bids. Time for the completion of said work will be agreed upon after the letting of said contract by said board of commissioners and successful bidder.

Each bidder must furnish with his bid a certificate from the Industrial Board of Indiana evidencing the fact that he has his employees properly insured under the Compensation law.

Given by order of the Board of Commissioners of said county. PHIL WILK, Oct. 5-12-19 Auditor, Rush Co., Ind.

CONGRESS MAY BE THE TARGET

Charges To be Made Against Railroad Executives and Labor Leaders, it is Intimated

TO FORCE REFUNDING BILL

Opinion Advanced That Each Side is Attempting to Force Government to Beneficial Action

By LAWRENCE MARTIN
(U. P. Staff Correspondent)
Washington, Oct. 19.—Charges that railroad executives and union labor leaders both are endeavoring to utilize the rail crisis to force government action beneficial to them may be made in congress within the next few days.

The railroads want passage immediately by Congress of the railroad refunding bill under which they will receive \$500,000,000 from the federal treasury with an Amendment giving them the right to sue for the now famous "inefficiency of labor" claims, totalling hundreds of millions.

The brotherhoods want the railroads forced back into the hands of the government with eventual government ownership.

Certain members of congress frankly state they believe that some of the rail executives on the one hand and the union leaders on the other, have seized on the present crisis as their opportunity to force through their programs.

These Congressmen are seeking evidence to support this belief with the idea of making the charges on the floor.

The government already has decided it will not be coerced or bulldozed by either side, it was learned by high authority.

The railroad executives were informed about ten days ago by members of the Senate Interstate Commerce Committee that the provision giving them the right to sue for inefficiency of labor during the war would not be put in the railroad refunding bill by the Senate. A few days later they met in Chicago and in the face of a big strike vote against a previous wage cut, gave notice they would ask for further reductions.

In Cleveland, union leaders were quoted as saying that they believed government seizure of the railroads was the only solution of the present difficulty.

BY-LAWS ARE ADOPTED

Club Will be Financed With Sale of
Common Stock and Preferred
Stock Paying 5 Percent

WORK WILL START AT ONCE

Golf Course Will be Built in Time
For Play Next Summer—Stock
to be Non-Assessable

With 115 stockholders signed up Tuesday night and the required ten more assured today, the Rush County Country Club is now a reality, the stockholders having voted unanimously last evening at the meeting in the court house, to instruct the directors to purchase the tract of sixty-one and a fraction acres from Robert A. Innis at \$200 an acre immediately.

With a few amendments, the by-laws which were presented by the board of directors last night were adopted and a committee of three was appointed to draw up a constitution and by-laws, as well as articles of incorporation, which will be filed with the secretary of state in a few days.

The board of directors will appoint the standing committees in a few days, the first one to be the finance committee which will be in charge of the collection of the subscriptions for stock.

The business of putting the land in condition for use next spring will be started this fall, including the erection of a club house and the building of a golf course.

The proposition will be financed with the money derived from the sale of common stock, which is limited to two hundred shares, and of preferred stock, which will be limited to one hundred and fifty shares in the constitution and by-laws.

The constitution and by-laws will provide that the preferred stock sell for \$100 a share and draw five percent interest, but only the holders of common stock shall have a vote. Approximately \$5,000 in preferred stock was subscribed last night.

Ralph Payne, as temporary secretary of the meeting, read the proposed by-laws and they were then taken up, section by section, as questions were raised by stock members of the club.

One amendment passed by the members was that the stock shall be non-assessable, and that this fact shall be stated in the constitution as by-laws as well as in the stock certificate itself.

Another amendment which was adopted provides that the constitution and by-laws shall not be amended except by a majority of the stock members present at any given meeting, provided every stock member has been notified of the proposed amendment and what its purposes, thirty days in advance of the meeting. The by-laws presented by the board of directors provided that the by-laws could be changed by a majority vote of the board of directors.

These were the only changes of any importance in the by-laws offered by the board of directors. One minor change provided an unmarried woman over twenty-one years of age living with her parents, might remain in the club on a household membership. It was discovered that the sections of the by-laws conflicted in such a way as to make no provision for people of this class.

After these changes had been made and the amendments to the by-laws adopted, the question was raised as to whether the amount of stock should be stipulated in the articles of incorporation. It was pointed out that to avoid taxation, the amount of the stock should not be fixed in the articles, which brought about the suggestion that in order to incorporate all of the proposals, there should be both by-laws and constitution.

On motion of Will M. Sparks, it was unanimously voted that a con-

MAY PROCLAIM PEACE NOV. 1

President Harding to Act Since
Senate Ratified Treaties

Washington, Oct. 19.—President Harding may proclaim that the United States is officially at peace with the Central powers on armistice day November 11.

Formal peace between this country and her former enemies was virtually an accomplished fact today, however, by the Senate's ratification last night of the Harding peace treaties with Germany, Austria and Hungary. The vote was 66 to 20.

The four countries now will formally exchange ratifications after which peace will be officially proclaimed.

COUNCIL DIVIDED ON MOTOR PUMPER

Holds Closed Session Following Regular Meeting and is Unable to Reach Agreement

2 SAID TO FAVOR ONE OUTFIT

Other Councilmen Want Two Smaller, Equipped Outfits—Usual Business Transacted

The city council which met in regular session last night, transacted the usual business, with very little of importance coming up. The matter of purchasing a motor fire truck was considered behind closed doors, but the councilmen were unable to get together on the proposition and it was deferred indefinitely.

The bids on the purchase of motor fire apparatus were submitted two weeks ago, and it was thought likely that a decision would be reached last night, but it is said to be divided, and the matter may slide by.

It is understood that councilmen Pearce and Abercrombie are together on the purchase of one good pumping outfit, while Councilmen Wagoner and Manzy seem to favor the purchase of two smaller outfits, and none will give in to the other side, making a tie vote on account of the absence of Councilman Lee.

The two who are in favor of one good outfit do not desire to have the matter come to a vote, which would leave the decision in the hands of Mayor Seudder, and it is generally admitted that he is not in favor of a standard outfit.

Last night a 500 gallon pumper from the Stutz Fire Engine Company came here and remained all night, and Mr. Johnstone, the representative, urged the councilmen to accept his offer as submitted in the bids two weeks ago.

He said that the company had a 600 gallon pumper on their floor, which he could deliver here Sunday morning, if the city would place their order at once. He was not given much satisfaction by the councilmen, although his truck made a very favorable impression with those who saw it.

The council in their regular business decided to purchase 100 loads of gravel for street repair, and Superintendent A. T. Mahin reported that the new boiler would be shipped in a few days and that the water and light plant was now ready to receive the new machinery.

The matter of a drain in the form of a storm sewer near the old hitch rack, was taken up and the matter was left in the hands of the sewer committee with power to act. This new drain is made necessary by dredging of the mill race, and will take care of surplus water during a storm.

The fire committee reported that the bell tower and roof had been painted by the street committee. The usual claims and bills were allowed before adjournment and the next meeting will be on November first.

MRS. ALICE REA OF NEAR FALMOUTH DIES

Wife of Daniel Rea Expires at Local Hospital Following a Serious Operation

FUNERAL THURSDAY, 2 P. M.

Mrs. Alice Rea, wife of Daniel Rea expired last night about eight o'clock at the Dr. Sexton hospital in this city, following a serious operation. The deceased was a well known resident of near Falmouth, having resided on a farm one mile north of that town for a long time.

The deceased was 57 years old, and is survived by the husband and three daughters, who are Mrs. Helen Smith, Mrs. Edith McCrory and Mrs. Lillian Martin, all of the Falmouth neighborhood.

The remains have been taken to the home north of Falmouth and the funeral services will be conducted Thursday afternoon at two o'clock at the Fairview church, with burial in the cemetery nearby.

SUIT FOR BREACH OF PROMISE FILED

Cora H. Six of Near Gwynneville Demands \$5,000 From Sherman Addition of Near Carthage

REVIVES AN OLD CASE HERE

Addison Recently Arrested on Paternity Charge But is Released Because 2 Years Has Elapsed

Cora H. Six, a resident of Shelby county, living near Gwynneville, today filed suit in the circuit court against John Sherman Addison of near Carthage, the action being for \$5,000 damages for an alleged breach of promise to marry.

The plaintiff sets out in her complaint that in June, 1917 she became acquainted socially with the defendant and their acquaintance developed into undue attentions by the defendant, who made promises of marriage and had illicit relations with her.

She alleges that these relations continued after he returned from the war, and that in 1919 she gave birth to a child of which he is alleged to be the father, and that he refused to fulfill his part of the marriage obligations incurred from such courtship.

The complaint alleges further that he left the county and could not be located until recently when he was arrested on a paternity charge in the justice of peace court, wherein the action was thrown out on account of the lapse of two years in serving the warrant.

At the present time the case is before the circuit court on an appeal by the plaintiff in this case.

The complaint filed by Miss Six alleges that the defendant married another woman, and that her own character and reputation, which had heretofore been unstained, has been damaged in the extent of \$5,000, as well as the expense of maintaining the custody of the child.

C. W. Duncan, local attorney who represents the plaintiff in this case, also filed a suit in which W. P. McLaughlin and Company is plaintiff and William O. Allen defendant, the action being a complaint on an account in which \$100 judgment is demanded.

In the case of Joseph Eskew against Young and Young, a suit for money had and received the defendants have filed an answer in which they allege that they never had any business transaction with or for the plaintiff, and that he is unknown to them. They also ask the court to make Jennie Spacey a party to the defendants.

MITTEN FACTORY OPENS

Bluffton, Ind., Oct. 19.—The Boss mitten factory which suspended work during the summer, was in operation again today. Twenty-five women were given employment and more will be employed within the next few days, it was said.

ODD FELLOWS OF COUNTY GATHER

In Rushville For Annual Meeting, Climax of Which Will be Torchlight Parade at 7:15

1,000 MARCHERS EXPECTED

Grand Master Beyers and Grand Secretary Leedy Arrive at Noon To Take Part in Ceremony

The Odd Fellows of the various lodges in Rush county gathered here today for the county meeting, and with clearing weather in the north, it was predicted that a record crowd would be here tonight to take part in and witness the parade and initiation which will follow.

The threatening weather kept many away this afternoon, but even at that every lodge in the county was well represented and this afternoon a large number of candidates were being given the first degree by the Milroy staff.

Otto Byers, Grand Master of the State, of South Bend, and William H. Leedy, Grand State Secretary, of Indianapolis, were among the high officers who came this morning to take part in the county meeting. At noon they were guests of the Kiwanis Club at their weekly luncheon and each spoke briefly.

Three degrees were to be given today by the different lodges in the county, with Milroy having charge of the first degree this afternoon, and with the Mays and Arlington lodges taking part tonight.

The work tonight will be preceded by a torch light parade, in which each lodge will be represented with marching members and with floats. At least one dozen floats have been prepared, and artistically decorated by the Odd Fellows and Rebekahs who also will have a parade.

The procession tonight will form promptly at 7:15 o'clock at the corner of Main and Fifth streets and proceed south in Main. Two bands will take part in the marching, the local Odd Fellow's band heading the first division and the Arlington band the second.

One thousand people are expected in the parade tonight as the committee has been assured of a big attendance from each lodge in the county, and 1,000 sticks of "red fire" are on hand ready for the marchers.

An automobile delegation also will convey members who are unable to walk in the parade.

POSSESSION OF HOUSE AND DAMAGES SOUGHT

James H. Worth of Joplin, Mo., Files Suit in Justice Stech's Court Against Alvah Linville

COUNTER ACTION TO BE HEARD

James H. Worth, of Joplin, Mo., who is well known here, today filed suit in Justice Stech's court against Alvah Linville, the action being for possession of a house and for damages. The plaintiff alleges that the defendant rents a house at 432 West First street, and he refuses to give it up, after being served with a notice to do so.

The plaintiff also demands \$20 judgment which he says is one month's rent due. It is expected that the suit will be hotly contested as there is now a case pending in the circuit court in which Mr. Linville is plaintiff and Mr. Worth defendant, the action being to quiet the title of the real estate in the name of Mr. and Mrs. Linville, who claim they have a deed to the property.

The case in Justice Stech's court has been set for October 24 at ten o'clock in the morning.

Howard E. Barrett, as receiver in the case of Moore vs Moore in the circuit court, is plaintiff in a case against Lola A. Hudson, the complaint being for possession of real estate and \$100 damages. This case also was filed in Justice Stech's court.

FREIGHT RATE CUT REPORTED AGREED ON

Horizontal Reduction of Commodities Which Figure in H. C. L. Will be Made

RATE CUTS ARE IMMINENT

(By United Press)
Washington, Oct. 19.—Reduction of freight rates now applying to several important commodities virtually has been agreed upon by the interstate commerce commission, it was learned here today from a high administrative official.

A horizontal reduction of all freight charges will be made on certain commodities which play a big part in the continuation of the high cost of living, the United Press was informed.

It is understood here that representatives of the public group of the railroad board received assurances from members of the interstate commerce commission which in conference a few days ago that the rate cuts were imminent.

HARDING AGAINST ALLIANCE IN ARMS

Indicates He Hopes Limitation of Armaments Conference Will Bring Better Understanding

SPEAKS AT YORKTOWN, VA.

Stands on Spot Where British General Cornwallis Surrendered, Ending Revolutionary War

(By United Press)
Yorktown, Va., Oct. 19.—President Harding here today announced his unequivocal opposition to the United States becoming a party to any "alliances in arms" or submerging its nationality to a world sovereignty.

Standing on the spot where the British general, Cornwallis ended the revolutionary war by surrendering to George Washington, who opposed entangling alliances at the birth of the republic, the president indicated he hoped the forthcoming limitation of armaments conference would bring an "understanding and co-operative endeavor which shuns the alliance in arms."

The president's speech was taken to mean that he is opposed to suggestions from abroad that the United States join the Anglo-Japanese alliance or ally the tri-partite treaties with Great Britain and France for the defense of the latter. Harding emphasized that interdependence among the nations is necessary but asserted emphatically that "a program which seeks to submerge nationality will succeed."

Regarding a "world sovereignty" which might be taken to mean League of Nations, the president said: "One need not picture a world sovereignty, ruling over all the varying races, traditions and national cultures because it would never be."

"That would mean a social, institutional and intellectual standardization utterly inharmonious with the plan that filled the world with differing peoples, civilizations and purposes."

"No program which seeks to submerge nationality will succeed. This republic will never surrender so priceless a heritage, will never destroy the soul which impelled our gratifying attainments."

Out of the revolutionary war came a triumph of freedom of liberal freedom which caused an honorable and unbroken peace between the United States and Great Britain for more than a century, Harding said, adding that "a future breach of our peaceful and friendly relations is unthinkable."

After praising the genius of Washington, Harding said in part: "Our thoughts have lately been concerned with those events which made history on the scale of a world, rather than of a continent. Yet the lesson is the same. It is the lesson of real interdependence among the nations which lead civilization."

"I believe the time is come when there must be recognition of essential cooperation among nations de-

RAIL STRIKE PEACE PLAN IS PREPARED

U. S. Railroad Labor Board Meets in Chicago Today to Carry Out President's Proposal

TO MEET UNIONS TOMORROW

Board Expected to Propose Railroads Give Public Benefit of 12 Percent Wage Cut in July

BY SLASHING FREIGHT RATES

Brotherhoods Will be Asked to Call Off Strike and Roads Not Seek Further Wage Reductions

By CARL VICTOR LITTLE (U. P. Staff Correspondent)

Chicago, Oct. 19.—The United States railroad labor board met today to carry out President Harding's proposals to bring peace in the railroad labor war.

Chairman R. M. Barton, of the board, said President Harding outlined to him certain broad proposals which the board will form into a concrete peace proposition for presentation to the union heads tomorrow.

Barton, Haugar and Hooper, who represent the public on the board, just returned from Washington where they were summoned by the president.

"The definite plan of proposed railroad peace will not be known until the members of the board have gone into every phase thoroughly," Barton told the United Press.

"We know in a certain way, the will of the administration and will talk matters over with those members of the board representing the carriers and the workers. The members who were not in Washington will give us the benefit of the 12 percent wage cut in July by an immediate slash in freight rates and that the carriers withdrew for the present their request of an additional 10 percent reduction in wages."

J. L. Smock, vice president of the Maintenance of Way Workers, affiliated with the American Federation of Labor, said here today, that his union would not issue a call for a strike if the roads would reduce freight rates and withdraw their request for an additional 10 percent cut in wages.

The brotherhoods will be asked to call off, temporarily their Oct. 30 strike order and to use their influence in forestalling similar orders from other unions.

The hearing of the Pennsylvania before the board set for tomorrow morning, will proceed according to Barton. The Pennsylvania has been cited before the board to show why it should not be publicly repudiated for disobeying the board which ordered it to confer with shop employees to draw up a nominal set of working agreements.

The board in a recent rebuke to the Pennsylvania described the roads disobedience of orders as "treasonable."

One member of the board "speculated" that representatives of the Pennsylvania, following the public hearing tomorrow, may be called into executive session with the board and told of the administrations plan of peace.

The executive committee of the railway department of the American Federation of Labor met today with

Roads Want a Strike

(By United Press)

Washington, Oct. 19.—"Railroads executives of the nations want a rail strike, believing it will give them a chance to deal the unions a death blow and strongly install the open shop," Representative Huddleston, Alabama, charged in an interview with the United Press today.

"Thinking little about the welfare of the public the executives have schemed to bring on a strike to further their own selfishness," Huddleston declared.

REPORT IS SAID TO BE FAVORABLE

New Administration of Affairs in State Highway Department Are Commented Upon

FILED EXAMINERS REPORT

Former Methods Criticized and Points to Large Revolving Fund Which Is Now on Hand

Indianapolis, Ind., Oct. 19.—Change in administration of the state highway commission, through the appointment by Governor McCray of Lawrence Lyons as director, has resulted in a "very decided improvement" in the management of the affairs of the commission, according to a report of C. O. Van Horn, field examiner for the state board of accounts, filed with Jesse Eschbach, chief examiner.

The report criticizes the business methods of the old administration and refers to the large revolving fund kept with the Aetna Trust & Savings Company for which the state received no depository interest. Records in the state treasurer's office show, the report says, that since the revolving fund has been placed with a bank to draw interest, this action following the appointment of Mr. Lyons as director and John D. Williams chief clerk to reorganize the finances of the department, has drawn \$206.33 depository interest.

The revolving fund, the intent of which was to take care of the maintenance pay roll, and such emergencies that might arise, and which was first authorized in the sum of \$5,000, grew to more than \$100,000 under the old administration, the report says. When the change in administration took place the depository showed a balance of \$76,665.30. Of this amount \$38,437.06 was represented by outstanding checks and the remainder was turned over to the department by the retiring director.

The report recommends that payment on all outstanding checks be stopped on Sept. 30, that the residue of the fund be placed in the highway fund. According to Mr. Williams approximately \$1,000 remains in the fund at this time.

A financial statement of the work of the highway commission during the examination shows the total funds in the hands of the commission during the period amounted to \$4,797,789.15. Expenditures totaled \$4,089,552.09, leaving a record balance of \$708,236.30 on May 12. Of this balance \$671,012.12 was noted on the state auditor's balance and the remainder in the revolving fund. Seventy percent of the total expenditures were made by the maintenance division, the report shows. "It will be noted," the report adds, "that labor is one of the principal cost factors, showing 48.39 per cent."

30,000 LIVES MAY BE SAVED YEARLY

President of Society For Control of Cancer Organizes National Cancer Week From Oct. 30 to Nov. 5

DEATH RATE STATIONARY

Public Can be Taught How to Detect Early Symptoms and Induced to Begin Proper Treatment

New York, Oct. 19.—Thirty thousand out of approximately 90,000 persons who annually die of cancer in the United States, may be saved if the public can be taught how to detect the early symptoms of the disease and induced to begin proper medical treatment at once.

This is the opinion of Dr. Charles A. Powers, President of the American Society for the control of Cancer, which has organized a "National Cancer Week," from October 30th to November 5th inclusive, that the people at large may be better informed as to the scourge. Surgeons generally support Dr. Powers view.

Dr. Powers' statement is contained in an article written by Frank J. Osborne, Executive Secretary of the Society and published in Campaign Notes, the Society's official organ, together with statistics provided by Dr. Frederick L. Hoffman, statistician of the Prudential Life Insurance Company and one of the workers in the interest of "Cancer Week."

Dr. Hoffman's figures show that since 1916, the death rate from cancer has been arrested and has remained stationary except for minor fluctuations. This has spurred the Society to greater activity. In addition to the present campaign, it is month by month extending its work along the lines of public enlightenment and professional cooperation.

Dr. Hoffman's table of statistics shows that in 1920, 90,000 persons in the United States died of cancer and that those comprised 52,884 women and 37,116 men. Colored people were less affected than whites.

Dr. Osborne presents a unique decalogue written by Dr. Franklin H. Martin, of Chicago, Secretary General of the American College of Surgeons. Dr. Martin says he got the idea during the Detroit meeting of the American College, when Dr. Allen B. Kanaval visualized ten cancer "points" by throwing them on the screen. These Dr. Martin has translated into the "Ten Commandments of Cancer." They follow.

1. Remember that Cancer is a relentless foe of humanity; that it attacks the rich and the poor; the learned and the ignorant, and that its toll of death is greater than the destruction of the most malevolent war.

2. Remember that Cancer in its beginning can be cured, and that the wise man, accepting the advice of science, and recognizing the beginning, causes the Cancer to be cut from the body.

3. In this affliction heed not the voice of the ignorant, and submit not thy trouble into the hands of the Quack, because thereby death will be foreordained.

4. Search thy body for blemishes, the first signs of Cancer, and if thou shouldst find these signs, hasten to the physician that they may be interpreted and, with the diseases, eradicated.

5. One day each year thou shouldst rest from labors and give the day unto an examination of the body, that the physician may search into thy body for ills that should the signs of Cancer be evident, thou may be spared the most dreaded of deaths.

Thou shouldst remember that Cancer is not a blood disease but rather an ailment which begins in one spot and spreads slowly extending through the lymphatics; nor is it hereditary.

7. Remember that Cancer can be cured if completely removed by the knife before it extends through the lymphatics or blood stream, and that no other means of curing deep seated cancers has been discovered but be it known that radium and X-ray hold out hope because of their effect on superficial Cancers, and delay the progress of inoperable cases.

8. Remember that Cancer is not painful in its early stages.

9. Remember that irritation of a tissue favors Cancer; that a sore tongue irritated by a rough tooth, a cracked lip, a cigar, a pipe or a cigarette, and warts upon the eyelids, nose, or face should command the attention of a scientific physician.

\$1.00 DOWN SALE SELLERS

KITCHEN CABINETS

"The Best Servant in Your House"

One Week ONLY
Beginning Saturday
October, 22, 1921

Now is the time to buy your Sellers Kitchen Cabinet — while only \$1.00 will bring it to your home. This way you can use it and enjoy it while making the remaining very easy payments.

SELLERS MASTERCRAFT

- No. 1—Oil Hand-rubbed Finish. Costs us \$9.750 extra, annually.
- No. 2—Automatic Base Shelf Extender. Costs us \$9.000 extra, annually.
- No. 3—Automatic Base Shelf Extender. Costs us \$9.000 extra, annually.
- No. 4—Dovetail Construction. As used in all high grade furniture. Costs us \$7.500 extra, annually.
- No. 5—Dust-proof Ease Top underneath the Porcelain Work Table. Costs us \$11.250 extra, annually.
- No. 6—Glass Knobs. Cost us \$2.250 extra, annually.
- No. 7—Anti-rust Casters. Cost us \$10.000 extra, annually.

You don't have to fit your work to the Sellers. It just fits right into your work so naturally that you will wonder how you ever got along without it.

Last Chance to Get a Sellers On These Special Terms

If you want a Sellers, on these special terms, you must buy now. When the last one of this lot is gone, special terms will be withdrawn immediately. Telephone early if you cannot come.

Only \$1.00 brings a Sellers to your home during this sale.

During "Cancer Week" the most eminent authorities in the country will discourse on the disease at the many meetings to be held in the United States and Canada.

Chicago Children To Be Fed Sheep Glands

(By United Press)

Chicago, Oct. 19.—Subnormal pupils of Chicago public schools will be fed sheep glands to brighten their faculties, it became known today.

Dr. Frank G. Bruner, director of special schools, said experiments are to start within a week.

His announcement followed recommendations of Dr. Allen Hurly of the Chicago Tuberculosis Society and Dr. A. S. Hirschfeld of the City health department.

Exact nature of the experiments was not disclosed but Dr. Bruner said the glands would be prepared in the public school kitchens and fed to the children who are below par in their studies.

According to Dr. Bruner, several thousand children will be given the treatment.

The vacant stare on the faces of pupils will change soon after the treatment is administered, it was said.

Dr. Bruner said that experiments with monkey glands had restored vitality in many cases.

"We intend to put new brains into the minds of pupils by use of the sheep glands," he said.

QUEBEC, Que.—The sheep industry in the province of Quebec has had a steady growth, and there are now more than 1,000,000 sheep in the province.

New York Stocks

(By United Press)

New York, Oct. 19.—The list held well right through the first hour on the New York stock exchange today.

Mexican Petroleum got as high as 97, but then reacted nearly a point. The contract of the British-Mexican Petroleum company with the Huasteca Petroleum Company for the supply of fuel oil for the year 1922, demonstrates beyond a doubt that the management of Mexican Petroleum is confident that Mexican Oil is not going to dry up in the near future.

The whole list acted well at the opening. Mexican Petroleum responded to a statement of E. L. Diney on the Mexican Oil situation by opening at 96 3/4, up 3-8.

Pan American made an early high at 44, up one point. Royal Dutch gained 3/4 at 43.

On a Chicago dispatch indicating the regular dividend on Pullman this stock opened at 89 up 1 1/2 and then ran up to 90.

Rails also worked higher and the average gain in dividend paying carriers at the opening was close to a half point. Steel common was up 1/4 at 78 1/2 and independent steels were also fractionally higher.

Sugars continued heavy with American Sugar common off 1/4 at 48 3/4.

Opening prices included:

Central Leather 273-8, up 1/4; U. S. Steel 78 1/2 up 1/4; Texas and Pacific 22 up 1/4; American Sugar 48 3/4 off 1/4; Great Northern pref'd 70 up 1/4; Retail Stores 525-8, off 1/4; Pullman 89 up 1 1/2; American Telephone 108, up 1/4; American Can 255-8, off 1/4; U. S. Rubber 48 off 1/4; Reading 68 1/2 up 1/4; Asphalt 52 1/2 up 1/4; Northern Pacific 78 up 1/4; Studebaker 72 1/2 up 3/4; Royal Dutch 43 up 1/4; Baldwin 85 1/2 up 1/4.

PRINCES IN AUTO MISHAP

London, Oct. 19.—The prince of Wales with his brother Prince Henry was in a motor crash Saturday and had a narrow escape, it was announced today. The princes were motoring near Cambridge, when their car collided with a motorcycle.

Will The Farmer Buy

Is the farmer going to buy this fall? As one writer puts it, "many a manufacturer and merchant would sleep better tonight if he knew the answer".

A leading farm journal, determined to find out whether the American farmer will be in the market for purchases and, if so, what will he buy? The research department of this farm publication adopted a

novel plan to get the right answer. A man named Smith in the research department calculated if he sent his questions to all the Smiths on the publication's lists he would get a real line on the farmers' idea on the subject of fall purchases. So out went a questionnaire to the 12,824 Smiths who were subscribers to the farm journal. Then replies, which were heavy, were used as a basis for estimating what the entire 1,100,000 farm subscribers were going to do with the money they receive from the marketing of their products.

One of the most interesting features developed by the questionnaire is that eleven and five-tenths per cent of the Smiths will buy automobiles making a total of 126,500 cars to be bought this fall by the 1,100,000 farmers. In addition to showing the number of cars for which farmers will be in the market, the answers revealed that 116,200 have already determined upon the make of car which they will purchase.

Shoes Fitted by X-Ray

The very modern shoe man does not trust to moral suasion to convince his customer that a shoe is too large or too small. He takes the customer back to the X-ray machine and shows him a picture of his feet in the shoes. The result is that a customer usually leaves the store with a pair of shoes that fit his feet instead of his pride or his imagination.

The customer looking down into the machine, sees with startling clearness the outlines of the bones of his feet and the dark shadow of the shoes about them. The salesman can see the picture also, and there can be no argument as to whether the shoes do or do not cramp any part of the feet. The picture, flattering or not, is the truthful record of photography.

It is strange that civilized humanity, so sensible in the main, and so impatient of suffering in the rest of the body, has been so idiotic about its feet.

Scientists of the world have been meeting in New York. Scientists pride themselves on their exactitude, yet what is most interesting is their speculativeness.

The average person generally objects to being termed only an average.

The public official who uses a big noise is often a fire-breather unaware.

Armistice Day will soon be with us, and a few may think to remember it. What is the date?

Current Comment

The Strike Threat

(Providence Journal)
A report that the railroad men of the country are strongly in favor of a strike against the twelve percent reduction in wages ordered by the Labor Board, is by no means as serious as it might be, notwithstanding the fact that in all the union organizations there are hot-headed individuals who find enjoyment in labor disturbances. The American people know that, considering the circumstances, a cut of twelve percent is very small, the wages of many of the men having been advanced from one to two hundred percent during the past few years. Furthermore unemployment is so widespread that the chances of winning a strike are so remote as to be hardly worth considering. The absolute failure of the strikes of the marine workers and the steel men foreshadows a like fiasco in the railroad field if the men should be so foolish as actually to quit work.

The probability is that neither the leaders nor the rank and file of the men have any desire to strike on such an issue as a twelve percent reduction in wages. The statement that the strike talk is intended to scare the Labor Board into sanctioning the continuance of the Government working rules doubtless has a substantial basis. The testimony presented to the board shows that the rules were devised for the purpose of increasing the cost of labor; two or three men under the rules are required to do the work of one man; and in addition there are heavy charges for overtime. The loading provided by them, and the evidence as to rules indicates that employment of unnecessary men cut into earnings more heavily than the inflated wages carried on from the war period. There is no doubt that the rules ought to be abolished or greatly modified, for under present conditions the public is being assessed in high freight and passenger rates for the purpose of maintaining abnormal payrolls and easy jobs.

The day of normal prices is being postponed by the opposition of workers to a reasonable programme of deflation. This is pointed out in a letter of the President of the Brotherhood of Railway Trainmen on the wage question. He says: "The men that millions of workers are out of employment; that nearly all classes of labor have been forced to accept reductions during the past year and that the Government reports show that since July 1, 1920,

Prince Albert's a new note in the joys of rolling'em!

Talking about rolling your own cigarettes, we'll tell you right here that Prince Albert tobacco has 'em all lashed to the mast!

You've got a handful of happiness coming your direction when you pal it with P. A. and the makin's papers! For Prince Albert is not only delightful to your taste and pleasing in its refreshing aroma, but our exclusive patented process frees it from bite and parch!

And, for a fact, rolling up Prince Albert is mighty easy! P. A. is crimp cut and stays put and you whisk it into shape before you can count three! And, the next instant you're puffing away to beat the band!

Prince Albert is so good that it has led four men to smoke jimmy pipes where one was smoked before! It's the greatest old buddy-smoke that ever found its way into a pipe or cigarette!

Prince Albert is sold in tippy red bags, tidy red tins, handsome pound and half pound tin humidors and in the pound crystal glass humidors with sponge moistener top.

Estate Hot Storm

You should demand more than a mere Hot Blast for your heating stove this year. Most every stove manufacturer today makes a hot blast or combustion device for burning any kind of fuel, but what people should buy today is a stove that gets more heat from the same amount of fuel burned. And the only way to do this is to construct a stove which will circulate as well as radiate heat. The ESTATE HOT STORM is the stove with a little furnace in it that heats just the same as a pipeless furnace. There is no other way of getting as much heat as with the ESTATE HOT STORM, which has the latest Hot Blast Combustion Device used in any store.

AMUSEMENTS

His Role of Avenger

Justice is the theme of the William Fox production "When a Man Sees Red", which comes to the Music Theatre today, with William Farnum as the Star-justice, which a brother demands for a wrong done to his sister.

"He cannot enlist the aid of the law, for the name of the wrongdoer is unknown to him; but he makes a vow to devote the rest of his life, if necessary, to tracking down this destroyer of his happiness."

The adventures he encounters in this unrelenting search furnish a series of thrilling situations building to a climax as dramatic as any ever portrayed on the screen, when passion and prisoner meet and retribution is exacted on an island inhabited by savages, where the survival of the strongest is the only law.

William Farnum has made many great pictures, but the consensus of opinion seems to be that none has been stronger than this. The role he enacts, it is said, affords him wonderful opportunities to register all human emotions—which, with an actor of Farnum's well known histrionic ability, means a superlative performance.

WILL NEVER RESUME WORK

Opinion Advanced That Sandusky Cement Company Will Never Open

(By United Press)

Syracuse, Oct. 19.—The \$1,500,000 Sandusky Portland Cement company's plant, which formerly employed several hundred men, but which has been idle for a long period, never will resume operations, according to reliable information received here.

The suspension of the plant was due to the fact that the process of manufacturing cement from limestone is much cheaper than producing it from marl, found here in large quantities. There are limestone deposits here, but engineers who have made an investigation hold that it will not pay to bring the rock to the surface.

It was reported to the Daily Republican Monday and printed that George W. Hall of Washington township had passed his ninety-second birthday last week. This was incorrect as the man referred to was George W. Legg of Washington township.

PLENTY OF GAME IS REPORTED IN SEASON

More Rabbits, Ducks and Quail Than There Has Been in the State For Several Years

QUAIL SEASON OPENS NOV. 10

(By United Press)

Indianapolis, Ind., Oct. 19.—Game is plentiful this season, George N. Manfield, state fish and game superintendent asserted today.

There are more rabbits, ducks and quail than there have been for years. In addition, he said, prairie chickens are plentiful in western Indiana. All Indiana game is now "in season."

Rabbits are eating the bark off young fruit trees in all parts of the state. Mallard ducks are found in great numbers on any Hoosier body of water.

The rigid enforcement of the new ferret law prevents wholesale killing of rabbits. In past years rabbits have been shipped in earload lots from rural districts to the city.

Manfield said abundance of ducks is due to the law which prevents hunters from shooting them before sunrise and after sunset.

The quail season opens Nov. 10 and closes Dec. 20. This short season and the limit of fifteen a day to each hunter is responsible for their intense propagation.

Country Club Organized And Board Directed to Buy a Site

Continued from Page One

stitution and by-laws should be drawn up by a committee of three appointed by the president, to incorporate all of the sections and amendments of the by-laws adopted last night, and that the stock certificates should state that the stock was non-assessable and non-transferable except on the books of the club.

Dr. J. C. Sexton, president of the club, then appointed John A. Tisworth, Ernest B. Thomas and J. F. Arbuckle to draw up the constitution and by-laws and the articles of incorporation.

The meeting was called to order by Dr. Sexton, who made a plain statement of what had been accomplished by the board of directors which was elected over a year ago, but which had never found a satisfactory site at a reasonable price until a few weeks ago.

Dr. Sexton pointed out that the Robert A. Innis land, located one and one-half miles northwest of the

city, was ideally situated, that the topography was nothing short of perfect for a golf course and that its condition was such that the club could begin operation next spring.

Dr. Sexton said that there was forty-five acres in sod, only five acres being in corn, which would require special work to put it in grass by next spring. The other ten acres is a beautiful grove, the president stated, which may be fitted up with recreational equipment for children. The president referred to this feature as especially desirable as children may play there without being in danger of injury from being hit by golf balls.

Dr. Sexton said that Mr. Nelson, a golf course expert who laid out the course at Miami, Florida and two of the larger courses in Indianapolis, examined the proposed site here and pronounced it exceptionally well suited for a golf course, not only with respect to its present condition, but as to topography and soil.

Dr. Sexton said the board had estimated that after \$12,000 had been invested in the land, \$7,000 would be required for a club house and \$5,000 for building a golf course and making other improvements, which lead the board to believe that \$25,000 would be needed to finance the club.

Dr. Sexton said there were four water wells and one gas well on the land, but that they would all have to be cleaned and that another well would have to be dug at the club house. He also pointed out that there was a house on the tract which would be suitable for a custodian and that there were plenty of outbuildings to provide a place for machinery and equipment needed by the club. He likewise stated that there was enough fence on the place to provide all of the fence which would be needed for twenty-five years.

The contract with the gas company owning the gas well provides the owner of the land on which it is located shall receive \$50 a year rental in gas.

The constitution and by-laws provide membership shall be composed of stock, associate, lady, household, non-resident, clergy and junior members.

The stock membership shall be composed of persons holding one share of common stock, who shall be regularly proposed and elected. This class will be limited to 200 members and will pay dues of \$25 a year. None but stock members will be permitted to vote or hold office. Stock membership is transferable only to persons elected by the board of directors.

Associate members will pay a

Country Club Organized And Board Directed to Buy a Site

Continued from Page One

stitution and by-laws should be drawn up by a committee of three appointed by the president, to incorporate all of the sections and amendments of the by-laws adopted last night, and that the stock certificates should state that the stock was non-assessable and non-transferable except on the books of the club.

Dr. J. C. Sexton, president of the club, then appointed John A. Tittsworth, Ernest B. Thomas and J. T. Arbuckle to draw up the constitution and by-laws and the articles of incorporation.

The meeting was called to order by Dr. Sexton, who made a plain statement of what had been accomplished by the board of directors which was elected over a year ago, but which had never found a satisfactory site at a reasonable price until a few weeks ago.

Dr. Sexton pointed out that the Robert A. Innis land, located one and one-half miles northwest of the

city, was ideally situated, that the topography was nothing short of perfect for a golf course and that its condition was such that the club could begin operation next spring.

Dr. Sexton said that there was forty-five acres in sod, only five acres being in corn, which would require special work to put it in grass by next spring. The other ten acres is a beautiful grove, the president stated, which may be fitted up with recreational equipment for children. The president referred to this feature as especially desirable as children may play there without being in danger of injury from being hit by golf balls.

Dr. Sexton said that Mr. Nelson, a golf course expert who laid out the course at Miami, Florida and two of the larger courses in Indianapolis, examined the proposed site here and pronounced it exceptionally well suited for a golf course, not only with respect to its present condition, but as to topography and soil.

Dr. Sexton said the board had estimated that after \$12,000 had been invested in the land, \$7,000 would be required for a club house and \$5,000 for building a golf course and making other improvements, which lead the board to believe that \$25,000 would be needed to finance the club.

Dr. Sexton said there were four water wells and one gas well on the land, but that they would all have to be cleaned and that another well would have to be dug at the club house. He also pointed out that there was a house on the tract which would be suitable for a custodian and that there were plenty of outbuildings to provide a place for machinery and equipment needed by the club. He likewise stated that there was enough fence on the place to provide all of the fence which would be needed for twenty-five years.

The contract with the gas company owning the gas well provides the owner of the land on which it is located shall receive \$50 a year rental in gas.

The constitution and by-laws provide membership shall be composed of stock, associate, lady, household, non-resident, clergy and junior members.

The stock membership shall be composed of persons holding one share of common stock, who shall be regularly proposed and elected. This class will be limited to 200 members and will pay dues of \$25 a year. None but stock members will be permitted to vote or hold office. Stock membership is transferable only to persons elected by the board of directors.

Associate members will pay a

Taste is a matter of tobacco quality

WEDNESDAY, OCT. 19th — COUNTY MEETING

Nothing would please us more than to have you call at our place of business—128 West Second St.—and get better acquainted with our High-Grade lines of Musical Instruments. Our store is devoted exclusively to Music and Musical Merchandise. Our entire time is given over to the Music Business. We are interested in the advancement of Music in this community. Our store has been established in Rushville a little over ten years, during which time we have sold hundreds of high grade instruments throughout this community.

We invite the Public to visit our store this week while we are running these specials. Every owner of a player-piano or phonograph will be interested in this sale of Music Rolls and Records.

membership fee of \$25 and \$25 a year dues and will be entitled to privileges similar to those of stock members. This class is limited to fifty members and no person is eligible who, in the opinion of the directors, should take stock membership. Associate memberships will not be transferable.

Non-resident members—persons living outside of Rush county, will be admitted a membership fee of \$15 and shall pay \$10 a year dues.

Stock, associate and non-resident memberships carry with them the privileges of the club in the case of married men, to the member's wife and to his sons and daughters who are over 14 and under 18 years of age. Members of these three classes will have the privilege of taking their children under fourteen years of age to the club house and grounds of the club, under such rules and regulations, as the directors may from time to time adopt, when the children are in company either with their parents or any adult member of the family who is a member of the club, or accompanied by a nurse or maid. Any unmarried male stock or associate member shall have the right to introduce one lady guest at any time, when accompanied by such male member, to the privileges of the club.

Lady membership shall be composed of ladies, no member of whose household is eligible for stock or associate membership. Their membership fee is fixed at \$15 and their annual dues at \$15.

Any stock or associate member who is head of a household, may, upon written application to the membership committee and payment of yearly dues of \$10, take out a household membership for any member of his household between the ages of 18 and 21 years. A man's household membership shall cease at 21 years of age, but an unmarried woman beyond that age, who resides with her parents, may continue under the household membership.

Junior membership is composed of boys from 18 to 21 years inclusive who will be admitted for a membership fee of \$15 and annual dues of \$10.

All resident clergy of all religious denominations of Rush county may be admitted to membership without membership fee upon payment of the regular annual dues of \$25.

The constitution and by-laws will provide for the election of officers annually by the stock members, outline the duties of each officer and the appointment of five standing committees by the directors to direct the affairs of the club.

The regular annual meeting of the club will be held the third Wednesday in November and the fiscal year will end October 31.

Penalties for violation of the club's rules are provided. It is stipulated that there shall be no gambling for money, which shall not apply to prizes and trophies offered on games. It is furthermore set out that there shall be no intoxicating liquors allowed upon the grounds or in the club house and that there shall be no club functions at the club grounds on Sunday.

The "Gazette Officielle" publishes a royal decree prohibiting the manufacture and sale in Italy and the importation into the country, of matches containing any proportion of white phosphorus.

Human Need

These two words express the biggest, the most far reaching the most vital idea known to the mind of man. The Science, Art, Invention, Discovery, Individual, Organization, Society or Government that adequately supplies this need is indispensable to the welfare of human society.

One of man's most fundamental needs, without which he can do very little toward supplying other great human needs is

Good Health

Of all Sciences, Arts Inventions and Discoveries intended to supply this great need for the Human Race, Chiropractic stands in the forefront and, according to present indications, will soon be far in the lead of other methods. There is just one great fundamental underlying reason for this. Chiropractic has allied herself with the laws of NATURE.

In fact, one definition of Chiropractic reads: "Chiropractic is the Science and Philosophy of things Natural." Science deals with the facts of nature, therefore you can see why,

Chiropractic Is Scientific

When the vertebrae of the spinal column lose their normal position for any reason, this condition produces pressure upon the great nerves and CAUSES sickness. Chiropractic Adjusts the vertebrae to their normal position according to nature's design, and the power of Nature itself restores to good health.

WHAT IS A ONE CENT SALE?
It is a sale where you buy an item at the regular price—then another item of the same kind for 1c. As an illustration: The standard price of Rexall Tooth Paste is 25c. You buy a tube at this price, and by paying 1c more, or 26c, you get two tubes. Every article in this sale is a high-class standard piece of merchandise, just the same as we sell you every day at regular prices and have sold you for years.

A NEW WAY OF ADVERTISING
This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full-size package of high standard merchandise for 1 cent. It costs money to get new customers, the loss taken on this sale will be well spent if the goods please you.

IDLE 12 MONTHS HE IS NOW BACK ON JOB

Ohio Man Lost a Year on Account of Stomach Trouble—Is Now Well and Strong

"Only a man who has to work for a living knows what it means to get back on the job after not hitting a lick of work for a whole year. I lost twelve months straight time on account of stomach trouble. One of the worst cases I guess any man ever had. Tanlac not only made me a well man again but built me up 39 pounds in weight. I am writing all my friends in other cities to tell them of the wonderful effects."

The above statement was made by George B. Lowe, well-known employee of the Goodyear Tire and Rubber Co., living at 451 McGowan St., Akron, Ohio.

Tanlac is sold in Rushville by F. B. Johnson Drug Co. and by leading druggists everywhere. Advertisement

Hupmobile

Where, within \$400 of the new Hupmobile price, would you match the sound, known value of the Hupmobile? If you pay more, would the value be equally greater? At a lower price, would less in the car, and from the car, satisfy you?

"We are on the square"

FACTORIES RESUME WORK

Two Muncie Concerns Will Again Operate Full Time

Muncie, Ind., Oct. 19.—The "Hinds Dauch Paper company which suspended operations several weeks ago, resumed operations in part Tuesday and announced it would be operating in full within two weeks. It employs 350 men.

The Muncie Gear Works employing 500 men will resume operations in full within a week.

Work has been begun on the construction of a new boulevard skirting White river, the improvement having been authorized by the city council as a means of providing work for Muncie's unemployed.

W. W. SNIFF TO SPEAK

At the tomorrow "Church Night" at the Main Street Christian church the official board will have charge of the program. The Rev. W. W. Sniff of Union City, a former pastor of this church, is expected to be present and make a short talk. His many friends will be pleased at this opportunity to see, and hear him.

IS IMPROVING

Mrs. John M. Depweg, daughter of Mr. and Mrs. L. H. Doughty, who has been ill, is improving.

A Good Looking Woman Is Always A Well Woman

Health is Most Vital to You. Hear What Mrs. McGregor says

Laporte, Ind.—"About twenty years ago I first became acquainted with Dr. Pierce's Favorite Prescription. It was during expectancy and I was very frail and delicate, but the 'Favorite Prescription' strengthened me and I had comparatively no suffering. My baby was a strong, healthy girl and has always been fine and healthy. For the expectant mother, I think there is nothing to equal the 'Favorite Prescription.' And I always keep Dr. Pierce's Pleasant Pellets in my medicine closet for immediate use and feel that I couldn't keep house without them."—Mrs. Minnie McGregor, 612 Clement St.

The use of Dr. Pierce's Favorite Prescription has made many women happy by making them healthy. Get it at once from your nearest druggist, in tablets or liquid, or send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial pkg.

DEGRADE RECALL ELECTION FIGHT

"The House That Bill Built" May Prove The Undoing of None Partisan League in N. Dakota

FIGURES IN THE CAMPAIGN

Independents Claim House Cost \$18,000 While Builders Association Loaned More Than \$5,000

Fargo, N. D., Oct. 19.—"The house that Bill built" may prove the undoing of the non Partisan league in North Dakota. North Dakotas politics have long been rancorous with personalities, but the recall election campaign now on is witnessing the heights of vilification.

"The house that Bill built" stands in a pretty residence section of Fargo, new and imposing, although not in the class of mansions. If it did not figure strongly in the election campaign it might be termed a "nice house."

Independents opposing the Non Partisan League program in the recall election Oct. 28, are trying to bring the house "down around the ears" of the Non Partisan of their program. It was built by William Lemke, attorney general from funds supplied by the Builders Association, a Non Partisan institution of the state government.

Independents claim that the house cost from \$11,000 to \$13,000, while the law specifies that the association may loan only up to \$5,000 for home building. Pictures of the house are being used in all independent newspapers in connection with the campaign. Independent headquarters here are maintaining free bus service to take voters out to see the house.

The Independents seek to recall Attorney General Lemke, Governor Lynn Frazier and Commissioner of Agriculture and Labor John Hagen. These three officials form the state industrial institutions including the Home Building Association.

This page is read eagerly by the entire county daily. It is invaluable for merchants, farmers, professional men and all progressive people.

OUR RATES—All advertisements, except display are charged for at the rate of three-fourths cent per word for each insertion. We earnestly solicit these advertisements by telephone and expect payment when the collector calls. Ads mailed in should be accompanied by the remittance, as the amount is generally too small to justify bookkeeping.

Cards of Thanks and Obituaries are charged for at the same rate, minimum charge 25 cents. No charge accounts opened.

CLASSIFIED ADVERTISEMENTS ARE NOT TAKEN AFTER 10:00 A. M. FOR PUBLICATION ON THE SAME DAY

NOTICE TO ROAD CONTRACTORS

State of Indiana, Rush county, ss.: Notice is hereby given that the board of commissioners of said county, at their office in the court house at Rushville, Indiana, will receive sealed proposals for the improvement of a certain highway 2835 feet in length in said county by grading, draining and paving with macadam as set out in the specifications, plans and profile now on file in the office of the auditor of said county, by and under the laws of the State of Indiana. Said sealed proposals will be opened and the contract awarded for said improvement on the 29th day of October, 1921. Bids or proposals will be received up to 2 o'clock p. m. on said date.

The said road to be improved is located in Orange township, in Rush county, Indiana, and is to be known as the Francis Hurst, et al. road when so improved.

Bids will be for the completion of the said improvement in accordance with the plans, profile and specifications in the office of the auditor of said county, and shall include all labor and material for said work. In no case will extra compensation be allowed for any additional work alleged to have been done by the contractor or contractors to whom is awarded the contract.

Each bid shall be accompanied by a personal or surety bond in a sum equal to double the amount of the bid filed for the work bid on, to be approved by the board of commissioners of said county. Said bond shall be conditioned for the faithful performance of the work; the sureties, if personal, shall be resident freeholders of the State of Indiana, one of whom shall be a resident of Rush county.

Said bond shall be for the benefit of any person, persons or corporation who shall suffer any loss or damage by reason of any such bidder failing or neglecting to enter into a contract to perform such work awarded by the said board of commissioners or to carry out the same in any particular or to pay for any labor or material which may have been furnished to any such contractor or contractors or to any subcontractor, agent or superintendent under him, in the construction of said work.

Said improvement will be let as a whole to the lowest responsible bidder upon affidavit of noncollusion, which must be submitted with the bid, and upon failure to submit such affidavit such proposal or bid will be rejected by the board; and the board reserves the right to reject any and all bids. Time for the completion of said work will be agreed upon after the letting of said contract by said board of commissioners and successful bidder.

Each bidder must furnish with his bid a certificate from the Industrial Board of Indiana evidencing the fact that he has his employees properly insured under the Compensation law.

Given by order of the Board of Commissioners of said county. PHIL WILK, Auditor, Rush Co., Ind.

Oct. 5-12-19 Auditor, Rush Co., Ind.

CONGRESS MAY BE THE TARGET

Charges To be Made Against Railroad Executives and Labor Leaders, it is Intimated.

TO FORCE REFUNDING BILL

Opinion Advanced That Each Side is Attempting to Force Government to Beneficial Action

By LAWRENCE MARTIN
(U. P. Staff Correspondent)
Washington, Oct. 19.—Charges that railroad executives and union labor leaders both are endeavoring to utilize the rail crisis to force government action beneficial to them may be made in congress within the next few days.

The railroads want passage immediately by Congress of the railroad refunding bill under which they will receive \$500,000,000 from the federal treasury with an Amendment giving them the right to sue for the now famous "inefficiency of labor" claims, totalling hundreds of millions.

The brotherhoods want the railroads forced back into the hands of the government with eventual government ownership.

Certain members of congress frankly state they believe that some of the rail executives on the one hand and the union leaders on the other, have seized on the present crisis as their opportunity to force through their programs.

These Congressmen are seeking evidence to support this belief with the idea of making the charges on the floor.

The government already has decided it will not be coerced or bulldozed by either side, it was learned by high authority.

The railroad executives were informed about ten days ago by members of the Senate Interstate Commerce Committee that the provision giving them the right to sue for inefficiency of labor during the war would not be put in the railroad refunding bill by the Senate. A few days later they met in Chicago and in the face of a big strike vote against a previous wage cut, gave notice they would ask for further reductions.

In Cleveland, union leaders were quoted as saying that they believed government seizure of the railroads was the only solution of the present difficulty.

County News

Silver Flash Gasoline

Fill the gasoline tank with Silver Flash, and you've got a car just "rarin' to go."

You'll wear a regular Fairbanks smile, too, and for good reason.

The engine will start easily, pick up quickly and run smoothly. You'll have the power to get over the steepest hills and through the heaviest going. And big mileages! You'll swear you never met a gallon that held so much before.

And you'll switch to another brand of gas the day Flo Ziegfeld hires a legless chorus for "The Follies."
